*Announcing
The 99-99/4A*

ADVENTURE EDITOR

NOW WRITE AND EDIT YOUR OWN ADVENTURE GAMES FOR THE TI ADVENTURE MODULE!

TEX-COMP is proud to announce the 99/4-A Adventure Editor — an all new program which allows you to write your own adventure programs — Scott Adams move over! This disk or cassette based program allows:

1 Any existing adventure for the 'Adventure' command module to be edited, altered, listed, copied from any storage medium to any other storage medium (i.e. tape to disk or vice versa).

2 New adventure games can be created freely, using a 'template' game as a start-up step. These games can be conceived using the full power and capabilities of the TI 'Adventure' command module.

The program is written for 'Mini-Memory' or 'Editor-Assembler' command modules (cassette or disk) and offers the same features in both versions.

The program offers a full screen editor and a special easy to use mnemonic language called A.P.L. (Adventure Programming Language), and comes with a complete and detailed 75 page manual.

Available NOW From TEX-COMP
