DATE STONE OF RYN

Place the tape in the cassette deck and ensure that it is fully rewound. Type "LOAD", or hold down shift and depress RUN/STOP key. If program fails to load correctly, clean & demagnetize heads, and repeat. It may be adviseable to make your own working copy, as PET plays back its own recordings with greater reliability than those made on other machines. If still unsuccessful after several attempts, return the cassette for replacement to PETSOF, Radclyffe House, 66/68 Hagley Road, Edgbaston, Birmingham, B16 8PF.
