Communicating With Interactive Fiction

If you are not familiar with Infocom's Interactive Fiction, please read this section.

With Interactive Fiction, you type your commands in plain English each time you see the prompt (>). Most of the sentences that The STORIES will understand are imperative sentences. See the examples below.

When you have finished typing your input, press the RETURN (or ENTER) key. The STORY will then respond, telling you whether your request is possible at this point in the story, and what happened as a result.

The STORY recognizes your words by their first six letters, and all subsequent letters are ignored. Therefore, CANDLE, CANDLEs, and CANDLEstick would all be treated as the same word.

To move around, just type the direction you want to go. Directions can be abbreviated: NORTH to N, SOUTH to S, EAST to E, WEST to W, NORTHEAST to NE, NORTHWEST to NW, SOUTHEAST to SE, SOUTHWEST to SW, UP to U, and DOWN to D; IN and OUT will also work in certain places.

There are many different kinds of sentences used in Infocom text adventures. Here are some examples:

>WALK TO THE NORTH
>WEST
>NE
>DOWN
>TAKE THE BIRDCAGE
>OPEN THE PANEL
>READ ABOUT DIMWIT FLATHEAD
>LOOK UP MEGABOZ IN THE ENCYCLOPEDIA

>LIE DOWN IN THE PINK SOFA
>EXAMINE THE SHINY COIN
>PUT THE RUSTY KEY IN THE CARDBOARD BOX
>SHOW MY BOW TIE TO THE BOUNCER
>HIT THE CRAWLING CRAB WITH THE GIANT NUTCRACKER
>ASK THE COWARDLY KING ABOUT THE CROWN JEWELS

You can use multiple objects with certain verbs if you separate them by the word AND or by a comma. Some examples:

>TAKE THE BOOK AND THE FROG
>DROP THE JAR OF PEANUT BUTTER, THE SPOON, AND THE LEMMING FOOD
>PUTT THE EGG AND THE PENCIL IN THE CABINET

You can include several inputs on one line if you separate them by the word THEN or by a period. Each input will be handled in order, as though you had typed them individually at separate prompts. For example, you could type all of the following at once, before pressing the RETURN (or ENTER) key:

>TURN ON THE LIGHT. TAKE THE BOOK THEN READ ABOUT THE JESTER IN THE BOOK

If The STORY doesn't understand one of the sentences on your input line, or if an unusual event occurs, it will ignore the rest of your input line.

The words IT and ALL can be very useful. For example:

>EXAMINE THE APPLE. TAKE IT. EAT IT
>CLOSE THE HEAVY METAL DOOR. LOCK IT
>PICK UP THE GREEN BOOT. SMELL IT. PUT IT ON.
>TAKE ALL
>TAKE ALL THE TOOLS
>DROP ALL THE TOOLS EXCEPT THE WRENCH AND THE MINIATURE HAMMER
>TAKE ALL FROM THE CARTON
>GIVE ALL BUT THE RUBY SLIPPERS TO THE WICKED WITCH

The word ALL refers to every visible object except those inside something else. If there were an apple on the ground and an orange inside a cabinet, TAKE ALL would take the apple but not the orange.

There are three kinds of questions that you can ask: WHERE IS (something), WHAT IS (something), and WHO IS (someone). For example:

>WHO IS LORD DIMWIT?

>WHAT IS A GRUE?

>WHERE IS EVERYBODY?

When you meet intelligent creatures, you can talk to them by typing their name, then a comma, then whatever you want to say to them. Here are some examples:

>JESTER, HELLO

>GUSTAR WOOMAX, TELL ME ABOUT THE COCONUT

>UNCLE OTTO, GIVE ME YOUR WALLET

>HORSE, WHERE IS YOUR SADDLE?

>BOY, RUN HOME THEN CALL THE POLICE

>MIGHTY WIZARD, TAKE THIS POISONED APPLE. EAT IT

Notice that in the last two examples, you are giving the character more than one command on the same input line. Keep in mind, however, that many creatures don't care for idle chatter: your actions will speak louder than your words.

Infocom Basic Commands

Please read this section before playing Infocom text adventures.

BRIEF — This command fully describes a location only the first time you enter it. On subsequent visits, only the name of the location and any objects present will be described. The adventures will begin in BRIEF mode, and remain in BRIEF mode unless you use the VERBOSE or SUPERBRIEF commands.

SUPERBRIEF displays only the name of a place you have entered, even if you have never been there before. In this mode, not even mention objects are described. Of course, you can always get a full description of your location and the items there by typing LOOK. In SUPERBRIEF mode, the blank line between turns will be eliminated. This mode is meant for players who are already familiar with the geography.

The VERBOSE command gives a complete description of each location, and the objects in it, every time you enter a location, even if you've been there before.

DIAGNOSE — This will give you a report of your physical condition.

INVENTORY — This will give you a list what you are carrying and wearing. You can abbreviate INVENTORY to I.

LOOK — This will give you a full description of your location. You can abbreviate LOOK to L.

QUIT — This lets you stop playing. If you want to save your position before quitting, you must use the SAVE command.

RESTORE — This restores a previously saved position.

RESTART — This stops the story and starts it over from the beginning.

SAVE — This saves a "snapshot" of your current position. You can return to a saved position in the future using the RESTORE command.

SCRIPT — This command tells your printer to begin making a transcript of the story. A transcript may aid your memory, but is not necessary.

SCORE — This command will show your current score and a ranking which is based on that score.

SUPERBRIEF — This command gives you the sparest level of description. See BRIEF.

TIME — This command gives you the current time in the story. (Not available in all games.)

UNSCRIPT — This tells your printer to stop making a transcript.

VERBOSE — This command gives you the wordiest level of description. See BRIEF.

VERSION — Shows you the release number and the serial number of your copy of the story.

WAIT — Causes time in the story to pass. Since nothing happens until you type a sentence and press RETURN (or ENTER), you could leave your computer, take a nap, then return to the story to find that nothing has changed. You can use WAIT to make time pass in the story without doing anything. For example, if you met a wizard, you might WAIT to see if he will say anything; if you were aboard a flying carpet, you might WAIT to see where it goes.

Be sure to read the "Special Commands" section in selected games.

Troubleshooting Tips For Windows™

PROBLEM

Installation cannot be completed.

Installer runs out of disk space.

In Windows, The Infocom Collection program group and icons do not appear.

There are duplicate program icons in the Infocom program group.

In Windows 95, the Infocom Collection programs do not appear in the Program menu.

POSSIBLE CAUSE

Hard drive contains too many programs and does not have enough room for The Infocom Collection.

You are trying to install onto a compressed drive.

Windows is running under a shell program other than Program Manager.

You have installed the Infocom Collection more than once.

You installed the Infocom Collection programs using Windows 3.1

SOLUTION

Back up any infrequently used programs then delete them from the hard disk drive you are attempting to install to and try again.

Disk compression utilities cannot predict exact disk space; they can only estimate. The Infocom Collection files may not compress as much as your disk compressor expects. Try installing into the uncompressed section of the drive.

Other shell programs other than the Windows Program Manager are not supported. Make sure that in your System.ini file in the Windows directory, the shell command reads "Shell-Program.exe."

Select the extra icons and select the delete option from within the File menu.

Re-install over the same Infocom Collection directory using Windows 95.
