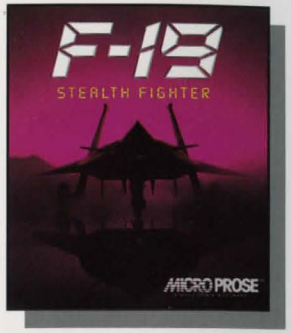
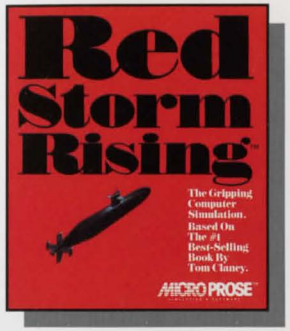
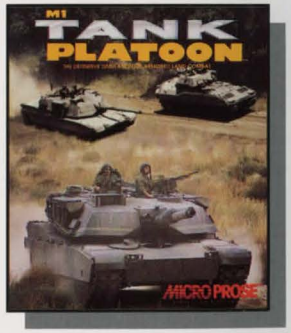
# MicroProse
# *Best of Times!*



**F-19 Stealth Fighter.** Discover sheer excitement in the combat simulation of America's new radar-invisible jet. Sneak and fight your way past MiGs and SAMs, strike your target, then return to land bases and aircraft carriers. IBM-PC and Amiga versions feature 11 stunning "camera angles" on the action. The Software Publishers Association voted *F-19* Simulation of the Year!
for Amiga (59.95), Atari ST (59.95), C-64 (44.95) and IBM-PC/Tandy/compatibles 384k RAM (69.95). (R) (AL)

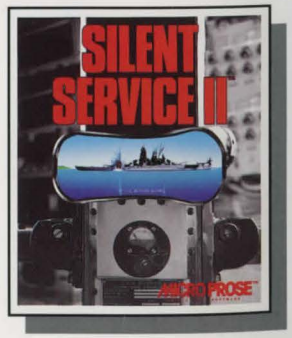


**Red Storm Rising.** Take charge of a nuclear submarine. Avoid detection while using sonar and radar to pinpoint enemy subs and ships. Destroy them with "smart" torpedoes and missiles. Based on the novel by Tom Clancy, developed with his advice.
for Amiga (54.95), Atari ST (44.95), C-64 (44.95) and IBM-PC/Tandy/compatibles 384k RAM (54.95). *Red Storm Rising* by Tom Clancy ® 1986 Jack Ryan Entrprs. Ltd. and Larry Bond.



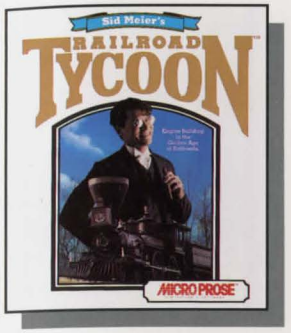
**M1 Tank Platoon.** Command a full platoon of four modern battle tanks. Give orders to just one or all four at once. Take over as commander, gunner or driver in any M1. Call in air support, infantry, even other tanks to help. Spectacular Super 3-D Graphics generate real-world, real-war rolling terrain.
for Amiga (59.95) and IBM-PC/Tandy/compatibles 512k RAM (69.95). (AL)

**F-15 Strike Eagle II.** Get ready for a real dogfight! No experience? Just turn on all the beginners' options. Hard-core? Turn off the options and you're on your own. The first *F-15 Strike Eagle* sold nearly a million copies worldwide. Now it's re-born with Super 3-D Graphics!
for IBM-PC/Tandy/compatibles 384k RAM (54.95). (AL)

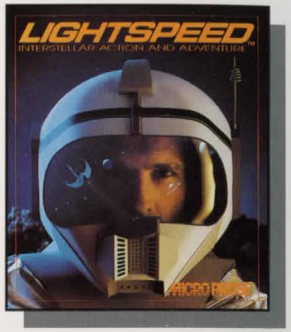


**Silent Service II.** *Silent Service* is known as the definitive World War II submarine simulation. The technologically advanced *Silent Service II*, with enhanced digitized graphics, new game options and full campaigns, packs more thrills than ever.
for IBM-PC/Tandy/compatibles 512k RAM; 640k for VGA/MCGA or Ad Lib sound (59.95).

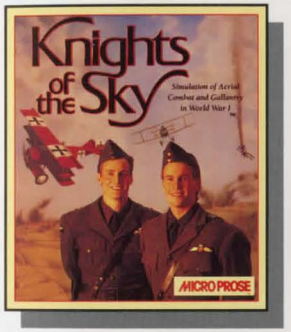
(R) Supports Roland Sound Card (AL) Supports Ad Lib Sound Card



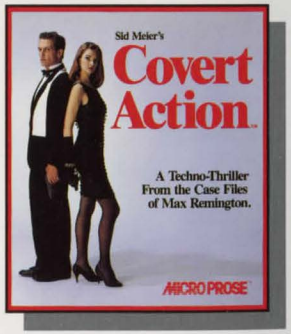
**Sid Meier's Railroad Tycoon.** Feel the pride and excitement of creating an industrial empire in the Golden Age of Railroads. Explore and develop new markets in the US and Europe. Stay up-to-date with locomotive technology. Compete against rail barons eager to crush you or brush you from their path.
for IBM-PC/Tandy/compatibles 512k RAM; 640k for VGA/MCGA (59.95). (R) (AL)



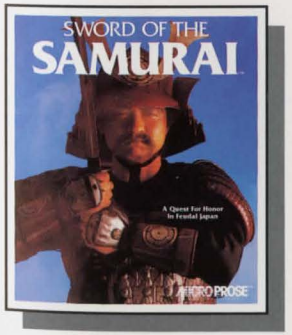
**Lightspeed.** You're the only human in deep space, searching for a new planet where humanity can thrive. You'll need combat flying skill to survive attacks on your ship, but you'll also need charm and political savvy to negotiate with the bizarre and intelligent beings who correctly see *you* as the alien. for IBM-PC/Tandy/compatibles 512k RAM (59.95). (R) (AL)



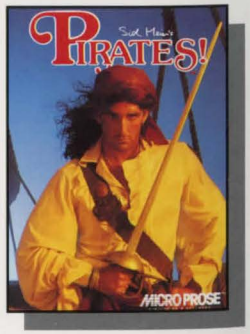
**Knights of the Sky.** You are a flying hunter in World War I, stalking Germany's most celebrated pilots. Using news and intelligence reports plus your own intuition, you track down the 16 men whose successes diminish your own. In the gallant tradition of the ancient knights, you challenge each to determine who is truly and unmistakably World War I's Ace of Aces. Two-player (modem) capability.
for IBM-PC/Tandy/compatibles 512k RAM (59.95). (R) (AL)



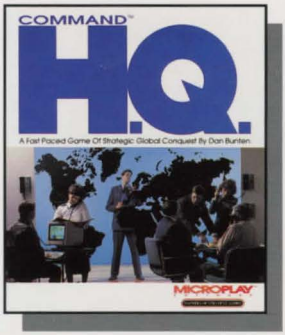
**Covert Action.** Award-winning game designer Sid Meier takes us on a global journey with super-spy Max Remington to uncover schemes of terrorism, crime and espionage. Max tracks suspects, taps phones, cracks codes and gathers clues from sub-plots around the world.
for IBM-PC/Tandy/compatibles 512k RAM (59.95). (R) (AL)



**Sword of the Samurai.** Assassins are out to do you in. Mighty warlords move armies to take your land. Worst of all, rival samurai scheme to diminish your Honor in this innovative combination of action, adventure, role-playing and historical simulation.
for IBM-PC/Tandy/compatibles 512k RAM; 640k RAM for MCGA graphics (54.95). (R) (AL)



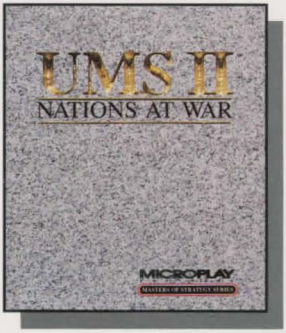
**Pirates!.** Sail to 50 island towns for fame and fortune in this role-playing adventure authentically based on the history of the Spanish Main. Dig for gold, bombard forts and ships, invade coastal towns, and pursue hundreds of unpredictable twists of fate.
for Amiga (44.95), Apple II (44.95), Apple IIgs (44.95), Atari ST (44.95), C-64 (44.95), IBM-PC/Tandy/compatibles 256k RAM (44.95), Macintosh (59.95).

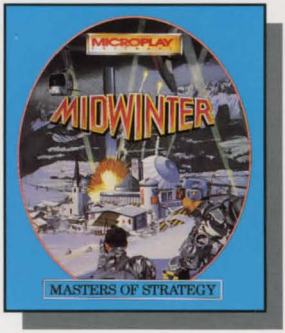


# MicroPlay
## *Masters of Strategy Series*

**Command HQ.** Take charge in a superpower's high-tech military nerve center — during World War I, II, III or IV. Deploy armies, planes and ships across the globe; see front-line action in colorful animation. *Command HQ* features an easy, intuitive interface and a realistic but uncomplicated approach to global warfare. Two-player (modem) capability.
for IBM-PC/Tandy/compatibles 512k RAM; 640k for Tandy graphics (59.95). (R) (AL)

**UMS II: Nations At War**. *UMS II* provides the power to design full campaigns and global wars between any historical, fictional or fantasy military force you know or can imagine. It answers all your "what if" questions by letting you shape any circumstance that can affect the outcome of any war.
for Amiga (59.95), Apple IIgs (59.95), Atari ST (59.95), IBM-PC/Tandy/compatibles 512k RAM (59.95) and Macintosh (59.95).



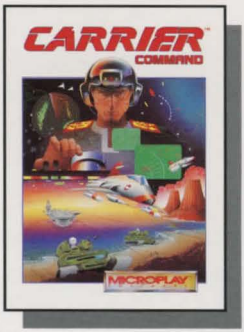


**Midwinter.** The world is locked in perpetual winter, and a mad dictator invades the peaceful villages that survive. Mobilize the officers of the Free Village Peace Force, taking advantage of their personalities and skills. Defend your region while leading a strike into enemy territory. *Midwinter* is an action-packed test of strategic and leadership skills.
for Amiga (39.95), Atari ST (39.95) and IBM-PC/Tandy/compatibles 512k RAM (49.95).

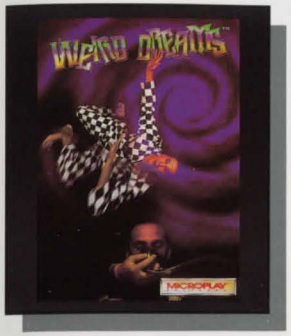
---

# Other MicroPlay Titles

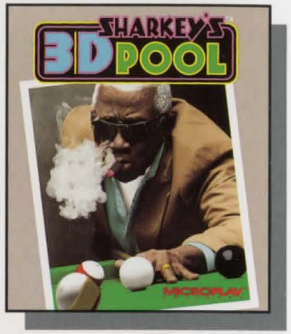
**Carrier Command.** You're locked in a desperate 22nd Century war. Your main weapon: a ship carrying robotic fighter jets and amphibious tanks. Your main enemy: your ship's twin, commandeered by terrorists. Choose the strategy option when you have the time, or the action game when you're on the run.
for IBM-PC/Tandy/compatibles 512k RAM (44.95) and Macintosh (49.95).



**Starglider II.** In this sequel to a smash hit, Imperialist Egrons build a death station to destroy the peaceful world of Novenia. Beam projectors on seven moons guard the construction. Your ship is amazingly maneuverable and packed with firepower. Rocket from planet to planet to gather resources for your attack.
for C-64 (29.95), IBM-PC/Tandy/compatibles 512k RAM (44.95) and Macintosh (49.95).

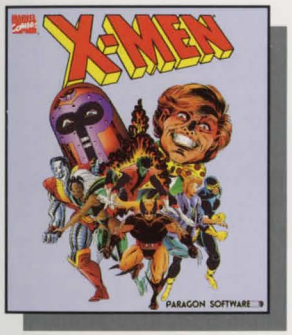


**Weird Dreams.** Like an ink-blot test, the bizarre scenes and puzzles in *Weird Dreams* will mean different things to different people. Some will think them funny, others will find them unsettling, still others will be outright offended. One thing is certain: there is no other computer game like it.
for Amiga (39.95), Atari ST (39.95), C-64 (29.95) and IBM-PC/Tandy/compatibles 512k RAM (39.95).
AL

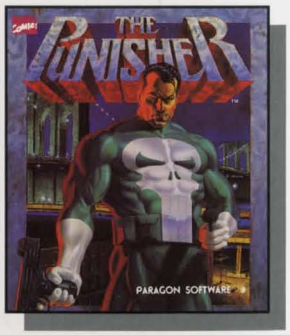


**Sharkey's 3-D Pool.** The first billiards simulation with the options you want. Play against the computer or a friend. Take an overhead 2-D view, or rotate the table to any angle for a full, 3-D perspective. 8-ball, 9-ball, Rotation or 14.1 Continuous. Optional wagering, tournaments and more.
for IBM-PC/Tandy/compatibles 512k RAM (39.95). R

# Paragon Software



**X-Men: Madness in Murderworld.** The Marvel Comic mutants face their arch-enemies in Murderworld, the amusement park of terror. You need reflexes and wit to survive over 500 action and combat screens!
for C-64 (34.95) and IBM-PC/Tandy/compatibles 384k RAM; 512k for Tandy graphics (39.95).
R



**The Punisher.** Marvel Comics' intriguing "hero" dispenses the dark side of justice in a world drowning in drugs and crime. Scour the streets of Manhattan in the Punisher's Battle Van. Get information from criminals, police and bystanders. Over 50 mission options lead to a showdown with Kingpin, the undisputed head of organized crime.
for IBM-PC/Tandy/compatibles 512k RAM; 640k for Tandy graphics (39.95). R

**MegaTraveller: The Zhodani Conspiracy.** Based on the science fiction game by Game Designers' Workshop, *The Zhodani Conspiracy* lets you select and control five travellers — former soldiers with different skills — trying to unravel a web of treachery and stop an interstellar war. Fight on land and in space. Visit alien worlds. Combining strategy and action, *The Zhodani Conspiracy* is futuristic role-playing fun.
for IBM-PC/Tandy/compatibles 512k RAM; 640k recommended (59.95).

* Available for Apple IIgs: Pirates! ($44.95) and UMS II: Nations at War ($59.95)

**Space 1889.** Imagine the Victorian era — with one small difference. Modified sailing ships can fly through outer space. You create and control five characters as they explore the solar system with the limited technology of the 1800s. Based on the role-playing classic by Game Designers' Workshop. Inspired by the writings of Verne, Burroughs and Wells.
for IBM-PC/Tandy/compatibles 512k (49.95).

**X-Men II.** Marvel's mutant heroes are back in action against a demon who can warp time! Select a team of five X-Men from among 15 available. Pit them against the demon and keep them from the clutches of Freedom Force — mutant mercenaries determined to capture the X-Men at any cost.
for IBM-PC/Tandy/compatibles 512k RAM (39.95). (AL)

**The Amazing Spider-Man.** Mysterio, the master criminal and illusionist, has kidnapped Peter Parker's wife, Mary Jane. To rescue her, Peter Parker calls on his alter ego, the Amazing Spider-Man! As the famous web-slinger, you'll invade Mysterio's lair to battle the super-villain's robotic guards, tricks and traps.
for Amiga (39.95), Atari ST (39.95), C-64 (29.95) and IBM-PC/Tandy/compatibles 512k RAM (34.95).

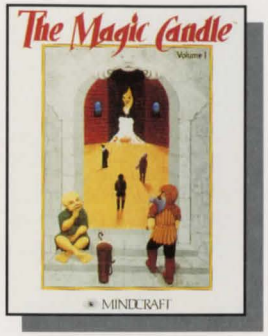
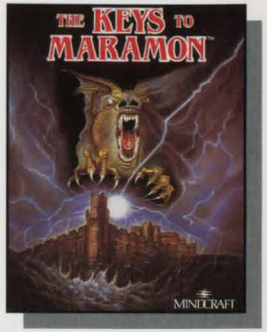
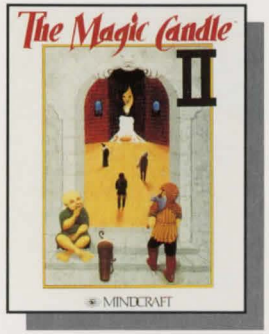
# MindCraft



**The Magic Candle.** This fantasy role-playing classic takes you to Deruvia, which has known peace since the demon Dreax was imprisoned in the flame of the Magic Candle. But now that flame is weakening, and it's up to you to restore its strength before the demon escapes. Filled with fascinating characters and detailed scenes, *The Magic Candle* delivers the adventure of a lifetime.
for Apple II (49.95), C-64 (39.95) and IBM-PC/Tandy/compatibles 256k RAM (49.95).

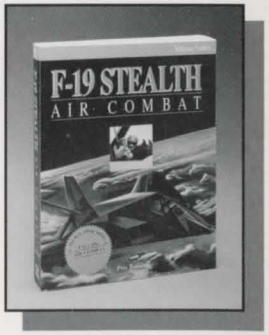


**The Keys To Maramon.** The peaceful village of Maramon is plagued nightly by hordes of monsters. You've been hired to end the terror, but combat alone won't win the day. You'll have to learn the dark secret behind the monsters' presence in Maramon. From the makers of *The Magic Candle.*
for Amiga (39.95), C-64 (29.95) and IBM-PC/Tandy/compatibles 384k (34.95).



**The Magic Candle — Volume II: The Four and Forty.** This sequel features all the enchantment of the original, plus new features and exciting surprises. Discover the fate of the guardians of the Magic Candle as you explore the lands of Gurtex across the stormy Sea of Oshmar. Can you thwart the Forces of Darkness in their attempt to build black magic candles of their own?
for Apple II (49.95), C-64 (39.95) and IBM-PC/Tandy/compatibles 384k RAM (59.95).

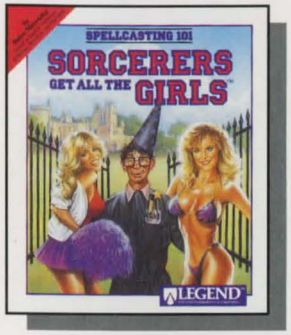
# The Best in Books



Learn advanced stealth flying from a master aviator in *F-19 Stealth Air Combat (Osborne/McGraw-Hill)* - a guide to our award-winning combat flight simulator. Written by fighter pilot Peter A. Bonanni, an expert in air-to-air and air-to-ground weapons and tactics, the book offers hints for success in the game, as well as a fascinating look at the history and future of stealth technology. A must for every *F-19* addict! **($14.95) plus $3 shipping and handling.**

Flight simulation expert Richard Sheffield is your co-pilot in *The Official F-15 Strike Eagle Handbook*, a guide to the world's most popular dogfighting simulation. You'll learn general combat tactics and maneuvers as well as hints and tips for high-speed aerial combat specifically in the F-15. **($12.95) plus $3 shipping and handling.**

# Legend Entertainment Company



**Spellcasting 101: Sorcerers Get All The Girls**. From the whimsical, R-rated mind of award-winning game designer Steve Meretzky (*Leather Goddesses of Phobos, Zork Zero*) comes a graphic depiction of life at prestigious Sorcerer University: complete with loose morals, reckless behavior and plenty of extracurricular activity!
IBM-PC/Tandy/compatibles 512k RAM (59.95). (R) (AL)

(R) Supports Roland Sound Card (AL) Supports Ad Lib Sound Card

## Modem Play

**The Hayes Personal Modem 2400plus**. Add a new dimension to the computer gaming experience by challenging friends across town or across the country to a game of *Command HQ* or *Knights of the Sky** with the wall-mounted Personal Modem 2400plus. This 2400/1200 bps modem, equipped with permanently attached computer and telephone cables as well as a speaker and easy-to-read LEDs, also gives you access to international databases, shopping networks, electronic mail and much more! **($199.00) plus $3 shipping and handling.**
* both tentatively scheduled to support modem-play.
