

**COMPUTER SOFTWARE FOR
COMMODORE 64™ AND
ATARI® COMPUTERS**

AN SFN COMPANY

Welcome to the world of Mindscape™ software!

Mindscape is part of the SFN family of publishing, communication, and information companies with a 100 year tradition of excellence. We have assembled an array of talented computer software professionals, from a broad range of sources, who know how to use computers effectively and who can create challenging, entertaining software.

Mindscape has five distinct software lines for adults and children:

Alert™: Recreational software for teens and adults

Folio™: Home productivity/utility programs for all ages

Pixelwerks™: Creative learning tools for ages 8 and up

Sprout™: Fun learning software for ages 4 and up

Scott, Foresman: Educational software for math basics

All our products reflect our commitment to quality, fun and education for the whole family. We produce software that challenges the mind.

ALERT™

MINDSCAPE'S ALERT LINE
Recreational Software for Teens and Adults

The Halley Project: A Mission in Our Solar System™

The Halley Project is looking for highly-skilled star-pilots to participate in a top-secret space exploration. To qualify, you must successfully complete a series of missions, navigating by the stars, in this authentic real-time simulation of the solar system. Special secret mission, too! Joystick required. *Available Now; Suggested retail price \$39.95*

The Halley Project is a trademark of Mindscape, Inc. All Rights Reserved.

*Are you made of
the right stuff?*

Shadowfire

You have 100 real-time minutes to rescue Ambassador Kryxix and destroy the starship Zoff V. In this icon-driven adventure, you control a team of specialists and elite fighters battling against Zoff and the forces of evil. *Available Now (C64 only); Suggested retail price \$29.95*

*You're in command—
can you rescue
the Ambassador?*

ALERT™

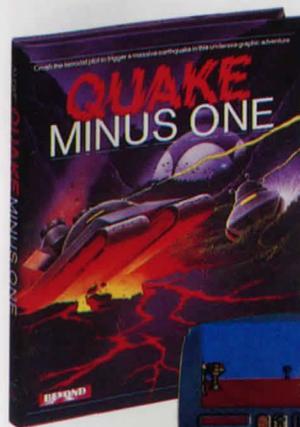

Recreational Software for Teens and Adults

Quake Minus One

A terrorist organization has taken control of the Titan Power Station, planning to trigger a massive earthquake and paralyze the world's industrial nations. With only one of five computers under your control, and ten hours remaining before the quake, you must capture or destroy the other four Titan computers and save the civilized world.

Available Now (C64 only); Suggested retail price \$29.95

Lords of Midnight and Quake Minus One © 1985 Beyond. Licensed in conjunction with International Computer Group.

Save the industrial world from sabotage and terror.

The Lords of Midnight

Doomdark, the WitchKing, controls the land of Midnight through Ice-Fear and sorcery. To defeat Doomdark, you must embark on a quest to destroy the Ice Crown, the source of Doomdark's power, or conquer Doomdark on the battlefield, or both. With 32,000 panoramas, even the experienced strategist will be challenged.

Available Now (C64 only); Suggested retail price \$29.95

Play as a quest, a war, or both!

Indiana Jones in the Lost Kingdom™*

This program is the ultimate challenge. You are INDIANA JONES in search of the fabled artifact. Relying only on your intuition, skill and logic, you must find and solve the problems in this adventure. Nobody told INDIANA JONES the rules, and no one will tell you! Joystick required.

Available Now (C64 only); Suggested retail price \$29.95

The ultimate challenge

The Dolphin's Rune: A Poetic Odyssey

Journey through a mystical, underwater world in search of nine hieroglyph fragments hidden in the sea. You must guide the dolphin through turbulent waters and avoid the dangers of the sea if you seek to learn the wisdom of the dolphin lore. Decipher the hieroglyphics and you could win an exotic trip. Joystick required.

Available Now (C64 only); Suggested retail price \$29.95

Discover the dolphin's secret

Crossword Magic™

This program allows you to create your own crossword puzzles, and use them again and again. It's a unique way to study any subject at any level—from foreign languages to astronomy, or use just for fun!

Available Now (C64), October 1985 (Atari); Suggested retail price \$49.95

Crossword Magic is a trademark of L&S Computerware

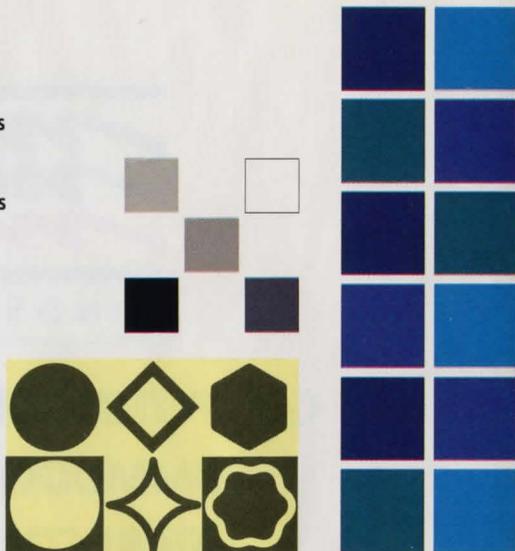

Folio

Home Productivity/Utility Programs For All Ages

The Lüscher Profile

This intriguing program will reveal anyone's personality traits based on his or her reactions to different colors and shapes. Test yourself and test your friends. Over 35 years of research show how amazing and psychologically revealing color and shape choices can be!

Available November 1985 (C64 only); Suggested retail price \$39.95

The Perfect Score: Computer Preparation for the SAT

Choose the SAT program with less manual labor! Mindscape helps you learn better and faster, by putting the program in the computer, not in the manual. The Perfect Score has 6 double-sided disks covering all areas of the test, a timed practice exam, print-out capability and a continuous on-screen clock. All this makes The Perfect Score more computerized than other SAT programs—so you'll learn more.

Available now (C64 only); Suggested retail price \$69.95

The SAT program with less manual labor

The Lüscher Profile, Keyboard Cadet and The Perfect Score are trademarks of Mindscape, Inc. All Rights Reserved.

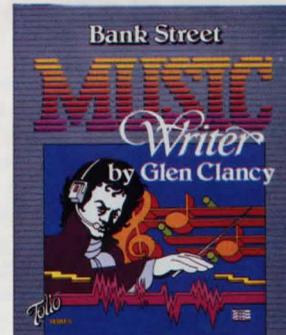

Bank Street MusicWriter by Glen Clancy

If you can hum a tune, you can write a tune. The joy of composing comes to life as you arrange music on the screen. Within minutes, beginners can be experimenting with melody, harmony and rhythm. Professionals will find the program useful, too, with its ability to shape tones and include repeats, endings, and triplets,

MusicWriter is a sophisticated notation editor; easy enough for a child and powerful enough for an adult. Available now; Suggested retail price \$39.95

© 1984 Glen Clancy

The easiest—and most sophisticated—tool for creating music

Keyboard Cadet

Learning to use the computer keyboard was never this much fun, this exciting, or this effective. Keyboard Cadet trains you to touch type on your computer using either the standard QWERTY or the Dvorak keyboard. Unlike most typing programs, however, Keyboard Cadet shows the user proper hand positioning and follows the same course of study that typing teachers use. An on-screen keyboard helps prevent "hunt and peck" typing, and the arcade game format keeps the typist involved. For ages 8 to adult.

Available now (C64 only); Suggested retail price \$39.95

Learn to type—the right way!

Creative, learning tools For Ages 8 and up

The Mr. Pixel™ Series

This series develops computer and problem-solving skills as it teaches basic programming concepts through creative activities. The programs are all integrated, so backgrounds created with the Programming Paint Set can be used in the Cartoon Kit and the Game Maker, and characters created with the Cartoon Kit can be used in the Game Maker. Joystick recommended for all three.

Available now (C64 only); Suggested retail price \$29.95

Mr. Pixel is a trademark of Master Software, Inc.

Mr. Pixel's Game Maker
Create your own arcade games, using if-then statements for rules and adding pre-drawn or original characters and backgrounds. Stresses logical thought development.

Mr. Pixel's Programming Paint Set
Draw on the computer screen in color, then change and experiment with your creations. Editing can be done via a picture-based programming language.

Mr. Pixel's Cartoon Kit
Select or create cartoon characters, then combine them into unique cartoon features. Develops strong planning and sequencing skills.

Show Director

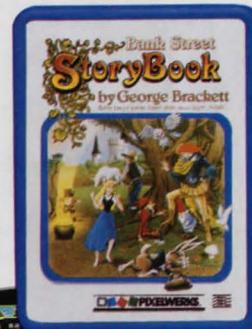

With this innovative creativity program, children use a simple word processor to write a script and then produce a show. They add excitement through colorful pictures, animation, music and sound effects. With over a dozen backgrounds and several dozen characters, children are limited only by their imaginations. Joystick recommended. Available now (C64 only); Suggested retail price \$29.95

Bank Street StoryBook by George Brackett

Everyone loves making up stories and drawing pictures. Now, with Bank Street's new program, StoryBook by George Brackett, you can create dynamic, multi-page stories with animation and pacing. The result—unattainable with any other software—is a lively story completely controlled by the creator. Stories can be stored on disk and printed out. Joystick required. Available now (C64 only); Suggested retail price \$39.95

Be a story-teller

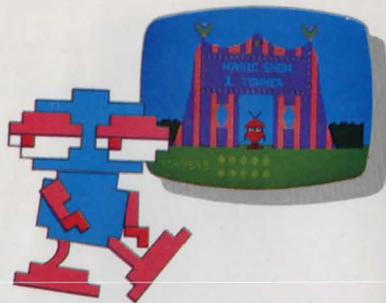

sprout™

Fun learning software
For ages 4 and up

The TINK!TONK!™ Series

The TINK!TONK! series consists of six programs that take place in TinkTonk Land and feature Tink, Tonk, Tuk and Tinka. All the programs have several multi-level educational games and an adventure option. Bold graphics, lively animation and original music keep children involved, attentive and learning.

Available now; Suggested retail price \$24.95

Tink's Subtraction Fair:
Helps children understand principles of earning and spending while practicing basic subtraction skills.

Tonk in the Land of Buddy-Bots:
Helps develop visual discrimination, concentration and memory skills. Joystick recommended.

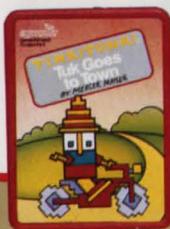

Castle Clobber:
A suspenseful graphic text adventure that develops map reading, logic and critical thinking skills. Joystick recommended.

Tuk Goes to Town:
Helps develop children's vocabulary and strengthen spelling skills.

Tinka's Mazes:
Helps children learn to count and develop basic addition concepts. Joystick recommended.

Tink's Adventure:
Helps children learn ABC order and become familiar with the computer keyboard.

ColorMe

ColorMe: The Computer Coloring Kit

ColorMe is an easy-to-use computer coloring kit designed especially for young children. Now, children can draw freehand or simply "cut and paste" dozens of predrawn pictures from Picture Disks. Every child is a talented artist with ColorMe and Picture Disks!

Available now (C64 only); Suggested retail price \$29.95

A computer coloring program especially for children

ColorMe Picture Disks

ColorMe Picture Disks have dozens of pictures of children's favorite characters like Rainbow Brite™, The Shirt Tales™, the Hugga Bunch™, and even the adorable TinkTonks™. Children can "cut" these characters from the disk and include them in their original creations. An exciting innovation in computer coloring software.

Available now (C64 only); Suggested retail price \$9.95 each

ColorMe Supply Box

The ColorMe Supply Box contains everything children need to turn their printer and ColorMe program into a treasure chest of creative activity. The Supply Box includes colored printer paper, adhesive-backed printer paper for stickers, a binder to make a customized coloring book and even special buttons.

Available Now; Suggested retail price \$9.95

Shirt Tales © 1980, 1981, 1982 Hallmark Cards, Inc. Rainbow Brite © 1983 Hallmark Cards, Inc. Hugga Bunch © 1984 Hallmark Cards, Inc.

Scott, Foresman

Educational Software Grades K-8

Math Action Games Series

A funny thing happened when the Math Action series arrived on the scene—learning math suddenly became exciting and fun. Children in grades K-3 learn numbers and counting with Frog Jump, and learn addition, subtraction and multiplication with Picture Parts. For grades 3-6, there's Pyramid Puzzler for multiplication and Star Maze for division. And for grades 6-8, there's Space Journey for percentages and Number Bowling for decimals and fractions. All of this outstanding software was developed by the #1 elementary and high school textbook publisher in the country, so quality is assured and the learning experience enhanced. *Available now* —(C64 only); *Suggested retail price \$19.95 each*

Math programs to grow with
