STANDARD MEMORY,  
KEYBOARD ONLY

Adventures are interactive fantasy games in which you solve a mystery by exploring an unknown environment with the help of your computer. You instruct the computer with plain english commands like "OPEN THE DOOR" or "GET THE KEY". Average solving time for each adventure is six hours.

This triple-pack contains:

**MOON BASE ALPHA:** Destroy the meteor that is racing towards your base, or else all moon colonies will be demolished!

**JACK AND THE BEANSTALK:** Outwit the Giant in your quest for his magical hen.

**COMPUTER ADVENTURE:** Get your computer up and running with a program. An adventure with a very different flair.

## ADVENTURE INSTRUCTIONS:

Adventures are interactive fantasies in which you play the role of a character in an unknown environment. Through the computer, you control your character and try to solve the mystery with plain english statements like "OPEN THE GATE" or "GET THE KEY".

The computer considers the first word the verb and the last word the noun. It also only looks at the first two letters of each word. Therefore, "OP GA" means the same as "OPEN THE GATE".

Enter "IN" (for "inventory") to see what you are carrying. Look at individual items for further clues.

In all of our adventures, you will never get into a "dead end" situation; there is always a way out (unless you die).

Below is a list of verbs that you can use (not all verbs will work in all adventures). The discovery of all the nouns is left up to you; that's part of the fun!

BUY	CALL	CHARM	CHISEL	CHOP	CLIMB
