Here's some learning fun for your children--it's the Barney Bear series of early education games for the Amiga.

Now even the youngest children can play and learn for hours at a time--without your supervision! Each learning game starts with story time, complete with music, animation, sound effects, and speech. Then, children can entertain themselves with many learning activities.

Using interactive stories and the many learning activities, your children will learn as they play. And each program includes a full-featured coloring book program with pages and pages of pictures.

Now your children, ages 2-6, can explore the world of computer learning all by themselves. So help your children grow with Barney Bear today!

Suggested retail price: \$34.95

## BARNEY BEAR GOES TO SCHOOL

It's the first day of school for Barney Bear!

Barney Bear helps children see just how much fun learning can be. Your children will help Barney Bear wake up, get dressed, eat breakfast, and go to school--with many opportunities to experiment and explore all along the way. Once there, children explore traditional learning in a school environment.

*Barney Bear Goes to School* includes the numbers and counting games, the alphabet and letter games, colors, shapes, and the coloring book program.

Suggested retail price: \$34.95

## BARNEY BEAR GOES TO THE FARM

Barney Bear goes to his grandparents farm!

Barney Bear learns about the necessary chores around the farm during the day, but later there's time to hear stories and play games. Your children will learn about farm animals, where milk comes from, and just how important farming is to our daily lives.

*Barney Bear Goes to the Farm* includes ten short "I Can Read" stories about farm animals, a mix-up-the-parts scarecrow, a "What Belongs?" game, and the coloring book program.

Suggested retail price: \$34.95

## BARNEY BEAR GOES TO SPACE

Join Barney Bear on his adventure in space!

Space is exciting for children and Barney Bear presents space-related information in an entertaining way. Barney Bear accidentally joins the astronauts on the Shuttle when he falls asleep on the loading conveyor belt.

*Barney Bear Goes to Space* includes information on all the planets in the solar system, a short history of space travel, fun facts about space, a game of repeat-the-pattern, and the coloring book program.

Suggested retail price: \$34.95

## BARNEY BEAR MEETS SANTA CLAUS

Travel with Barney Bear to Santa's workshop at the North Pole!

Santa Claus comes down the chimney at Barney Bear's house and Barney is still awake! So Santa invites Barney to take a ride on his sleigh and to visit his Toy Factory at the North Pole. Barney Bear meets elves, plays games, and gets to make toys.

*Barney Bear Meets Santa Claus* includes a mix-up-the-parts toy machine, a missing letter game, and the coloring book program.

# FREE SPIRIT SOFTWARE

The Amiga is a high-performance machine and like any high-tech instrument, it requires occasional adjustments to operate properly. The utility programs from Free Spirit Software are designed to let you know precisely what is wrong when your Amiga has a problem. With these handy utilities, you'll always know the status of your Amiga's critical parts.

Suggested retail price: \$49.95

## AMI..ALIGNMENT SYSTEM

The **Ami..Alignment System** is a high precision, floppy drive alignment and performance monitoring system for the Amiga. Using an intuitive, mouse-driven interface, drive tests such as alignment, speed, and read-write accuracy may be performed on any internal or external 3 1/2-inch floppy drive.

The **Ami..Alignment System** also gives you full manual control of virtually all drive functions, such as: turning the drive motor on and off, moving the heads in single track increments, and checking the alignment of any single track. **Ami..Alignment** comes complete with a program disk, a specially prepared calibration disk, and an operations manual which includes instructions and diagrams for drive disassembly and adjustment.

Suggested retail price: \$49.95

## DOCTOR AMI..

**Doctor Ami..** is an Amiga memory and hard drive diagnostic utility that performs low-level tests on your system using an elegant interface with simple controls and displays. **Doctor Ami..** consists of two programs, Memory Doctor and Drive Doctor.

Memory Doctor scans all system and expansion memory, locates and identifies bad memory locations, and creates an error file that can be used to automatically map-out bad memory locations.

Drive Doctor will read all disk sectors, locate and identify sectors with errors, and automatically map-out bad sectors. Boot Block and Root Block tests can also be performed.

Suggested retail price: \$149.95

## STERLING SERVICE BBS

**Sterling Service BBS** is the friendly Amiga bulletin board system.

Now, even beginners can set up a computerized bulletin board system (BBS). **Sterling Service** uses beautiful Amiga graphics, logical pull-down menus, and intelligent requesters to create an elegant interface that makes setting up and operating your BBS a breeze.

This ease-of-use lets you take full advantage of all the powerful features built into **Sterling Service**--features that let you create up to six independent BBS clubs (SIGs), perform all board maintenance on-line, and include "hidden" commands to generate a variety of system and user statistics.
