MIKRO-GEN

MINES of SATURN
RETURN to EARTH

Two Games for 16K/48K SPECTRUM

supplied by
SATURN DEVELOPMENTS Ltd

MINES OF SATURN: — "While piloting a routine orbit of SATURN, you are caught up in a radiation storm which forces you into the giant planet's rings. Your energy drained, you make a forced landing on the planet surface. Luckily you crash near an abandoned mining base and you set off in search of some Di-Lithium crystals to refuel your stranded space-ship. Can you succeed?"

RETURN TO EARTH: — "Having escaped from your previous dilemma, you reach Earth Station 1, but fail to make radio contact. You effect a safe if harrowing manual docking with the orbital station. On entry you find it deserted, and the control room destroyed. You must explore the station and find some way to alert Earth of your predicament, BEWARE, many of the rooms are identical, there is extensive damage, and signs of Alien intruders."

LOAD INSTRUCTIONS

For comprehensive loading instructions consult the instruction manual.

To load
1. Ensure that the ear socket is connected to the cassette ear socket.
2. Rewind the tape!
3. Set the volume and tone controls to a suitable level.
4. Type LOAD" "
5. Press ENTER.
6. Start the cassette recorder.
7. Once loaded the game will RUN automatically.
8. Good Luck!!

SPECTRUM ADVENTURE INSTRUCTIONS

Use the computer as your eyes and hands to explore the scenario as it unfolds, using commands such as 'go north', 'Take' or 'drop object', 'climb up', 'open door' etc. There are many English words the computer will recognise, it is up to you to discover which ones! Abbreviations & CAPITAL LETTERS WILL NOT be accepted.

When disaster strikes, GO TO 1 will start the game again. Do not use RUN, as this will clear the variables.
