## BRIGHT PEN

The BRIGHT PEN is a fast and effortless alternative to keyboard input. It's uses for menu selection, game plays, and graphic generation are unlimited. Graphs and histograms can be quickly and easily constructed with the BRIGHT PEN's two by two pixel resolution.

The BRIGHT PEN includes the PENSOFT software package. PENSOFT adds new commands to Applesoft for BRIGHT PEN control. You can use PENSOFT to speed interaction between your programs and the user.

For those lucky folks who already own the BRIGHT PEN, PENSOFT is the key to expanding your BRIGHT PEN library of interactive programs.

**REQUIREMENTS:** 32K DISK II Drive FP BASIC

**BRIGHT PEN and PENSOFT:** \$49.95

**PENSOFT:** \$29.95

## JOURNEY

With JOURNEY and your APPLE you will be able to explore strange and faroff lands without having to leave the comfort and serenity of your home. JOURNEY wisks you off to a land filled with dangerous monsters and priceless treasures. Your APPLE is your eyes and ears and you will rely on it to help you acquire all the treasure that you can carry without getting eaten alive. Simple one word commands tell your APPLE all it needs to know, some may even be abbreviated. JOURNEY changes every time you play, a move that's safe in one game may be disastorous in the next. JOURNEY uses the language PILOT (included) for fast paced action. Be prepared to spend lots of time with JOURNEY.

**REQUIREMENTS:** 48K DISK II Drive Price: \$29.95

## BASEBALL FEVER

Catch BASEBALL FEVER with this game that never gets rained out. You are the pitcher, batter and manager for your team. You control the line-up, pitching staff, base stealers, just like the real thing. Great color animation makes this program a real winner. When the game is over, you can save the game statistics to disk or tape to mark your progress throughout the season.

**REQUIREMENTS:** 48K DISK II Drive  
Integer Basic Price: \$19.95

## MAGIC WINDOW

MAGIC WINDOW represents an incredible breakthrough in Word Processing for the APPLE II. Formatting such as justification, centering of text, and columnization is done directly in the editing mode. There is no longer a need for special formatting commands to be entered. What you see on the screen is what you get on your printer. MAGIC WINDOW also allows you to type up to 80 characters per line, eliminating extra costs for 80 column hardware.

Some of MAGIC WINDOW's other features include:

A type ahead buffer, allowing you to type as fast as you wish without the fear of losing characters.

Global search lets you find any string anywhere in the document.

A menu driven operating system. No need to type in your commands, just select from the options available in each subsystem.

Simple to use single key-stroke editing commands allowing complete cursor control anywhere on the document.

Compatible with the Apple Language System, allowing you an extra 10K for your editing buffer.

Standard APPLE files. MAGIC WINDOW's file structure allows you to use its files in your own Basic language programs.

MAGIC WINDOW allows you to take total advantage of your printers capabilities. Proportional spacing, superscripting, subscripting, doublestrike and changing fonts are all available (depending on your printer) with MAGIC WINDOW.

So if you're tired of listening to all the hype about Word Processors and are looking for an easy to use and powerful Word Processing System then MAGIC WINDOW is for you.

**REQUIREMENTS:** 48K DISK II Drive

Price: \$99.95

## BASIC MAILER

Attention, MAGIC WINDOW owners!! Do you do a lot of correspondence or handle mailing lists with MAGIC WINDOW? Well, if you do then BASIC MAILER is for you. Use MAGIC WINDOW to create a letter, and let BASIC MAILER merge the letter with an address file to create as many form letters as you wish. BASIC MAILER will save you so much time with form letters for mailing list that it is hard to believe. Use the extra time to get extra work done or take a break and play some of SOFTAPE's terrific games. This program is a must for any company or individual with any size mailing list. The time and money saved by BASIC MAILER will make up the cost of this program in no time at all.

REQUIREMENTS: MAGIC WINDOW Word Processor DISK II Drive 32K  
Price: 69.95

## THE ELECTRONIC INDEX CARD FILE

This program for your Apple II uses the Disk II to store and retrieve information such as recipes, telephone numbers, etc. Instead of using paper cards, the information is stored on diskettes, which eliminates alot of messy paper.

Each card in the file is 40 columns wide by 12 lines long allowing for the storage of large amounts of data. Your index cards are stored in alphabetical order so finding or modifying data is just seconds away. Complete documentation is included.

REQUIREMENTS: DISK II Drive FP or INT Basic  
Price: \$29.95

## THE SCREEN MACHINE

Explore the world of programmable characters with the SCREEN MACHINE. You can now create new character sets, foreign alphabets, electronic symbols anything you want, or use the standard upper and lower ASCII character set. The SCREEN MACHINE lets you redefine any keyboard character. Just create any symbol with just a few keystrokes, and THE SCREEN MACHINE will assign that symbol to the key of your choice. THE SCREEN MACHINE gives you the option of saving your character symbols to disk or tape for later use. There is no complicated "patching" needed. THE SCREEN MACHINE is transparent to your programs. Just print the new character with a Basic "PRINT" statement. Complete documentation is included. This is probably the easiest to use character generator available today.

REQUIREMENTS: 48K DISK II Drive  
FP or INT Basic Price: \$29.95

## CRAPS

Ladies and gentlemen, place your bets please!!

Las Vegas CRAPS is a one or two player, high-resolution dice game even better than the real thing, there's no money to lose! If you can do it in real Craps you can do it in this exciting simulation. Place bets, play the field, the passline, hardway rolls, anything goes. Dice rolls are animated on the screen. Improve your own game or devise a "system". You'll be amazed how easily moves are made, and how fast the game progresses. ATTENTION, BRIGHT PEN owners!! You can use your BRIGHT PEN to play CRAPS without using the keyboard of your APPLE.

**REQUIREMENTS:** 48 K Disk II Drive    **Price:** \$24.95

## DRAW POKER

Did you ever find yourself in the mood for some poker, but couldn't find anyone to play with. Well, you'll never have that problem as long as you have DRAW POKER from SOFTAPE. Hi-Res playing cards and a green felt playing surface give this game the qualities of a classic. Everything in this computer version is the same as sitting in at one of the tables in Las Vegas. Ask for new cards, bet the house limit, but always remember—your opponent has the best poker face in the business, so be careful. You can't help not having a great time with DRAW POKER, and the best part of all is that no matter how much "money" you lose, you'll always leave the table with the shirt on your back.

**REQUIREMENTS:** 32K DISK II Drive    **Price:** \$29.95

## APPLE "21"

The excitement and realism of casino Blackjack is brought to your home in this exceptional package. Hi-Res playing cards and a green "felt" table bring that Las Vegas atmosphere wherever and whenever you want it. Up to three players may challenge the "DEALER" in this fast paced game of wits. Should you hit or hold, or maybe double down, the choice is yours. The game keeps track of your winnings or losses and tells you how you have done during this session. Any player may join or leave the game at any time without effecting the game. If you love Blackjack then this game is for you.

**REQUIREMENTS:** 48K DISK II Drive  
Applesoft or Integer Basic    **Price:** \$24.95

## STARMINES

Are you tired of hearing all those claims that game manufacturers are making about their new products? Well, now there is a game that lives up to your expectations. In STARMINES you must guide your spacecraft through a seemingly endless minefield in space. The mines will come out of nowhere with the sole intent of destroying your craft. Armed with a single laser cannon, you must destroy the mines before they collide with your vessel. After clearing one quadrant, you jump into hyperspace to get away, only to come out of it in the middle of another minefield. Five levels make this game challenging for the seasoned player as well as the beginner.

REQUIREMENTS: 48K DISK II Drive Price: \$29.95

## BAKER'S TRILOGY

This is a compilation of Steve Baker's finest games for the APPLE II. It's three great games for the price of one. PLANETOIDS puts you in control of a spaceship careening through space. You must destroy all of the Planetoids before they destroy you. BURNOUT seats you in a low, sleek Formula One racer in the APPLE Speedway. Two other drivers will do anything to keep you from completing the race—even sacrifice their own cars by running into you. If they do, you'll crash and burn. BUBBLES takes you into deep space and puts you behind the laser cannon of a space station. Your mission, should you decide to accept it, destroy all the enemy BUBBLES that approach the space station.

REQUIREMENTS: 48K DISK II Drive FP or INT Basic  
Price: \$29.95

## BEST OF BISHOP II

Since 1978, Bob Bishop has been setting standards for Hi-Res graphics and animation on the APPLE II. Even today, some of his earliest works are still among the finest available. In this package, you get nine of Bob's best offerings. Five of these are fast paced, Hi-Res action games. They include: Rocket Pilot, Saucer Invasion, Star Wars (based on the movie), Space Maze and Bomber. Also, the package contains two animated classics: Apple Vision and Apple Movie. Both are great examples of what can be done with the APPLE graphics capabilities. And that's not all!! As an extra bonus, two additional programs, Talking Calculator, an excellent teaching aid, and Music Kaleidoscope, a perennial party favorite, are included. This package has to be one of the best bargains on the market today. Less than five dollars per program. If you can find a better bargain, buy it!

REQUIREMENTS: 48K DISK II Drive FP or INT Basic  
Price: \$39.95

## ROULETTE

ROULETTE is a realistic simulation of one of the all-time favorite casino games. This one or two player game uses superior Hi-Res graphics and an actual spinning wheel to make you feel as if you were actually in Monte Carlo or Las Vegas. Bets can be placed via the keyboard or you can use SOFTAPE'S BRIGHT PEN. This is excellent addition to any software collection.

REQUIREMENTS: 48K DISK II Drive Price: \$24.95

## MICROGAMMON II

MICROGAMMON II is a triumph in board game simulations. No other Backgammon program uses intelligent, HI-RES graphics and human engineering the way Microgammon II does. If you love Backgammon then Microgammon II is for you. During each move, you can actually see the pieces slide across the board, allowing you to develop a better concept of the game and at the same time improving your skills. Microgammon II automatically adjusts it's skill level to it's opponent. A must!!

REQUIREMENTS: 48K DISK II Drive Price: \$19.95

## GOMOKU

The age-old game of GOMOKO is now available for your APPLE II. This game of five in-a-row was never like this. You play against a very smart and fast opponent with three levels of skill. The game is played on a Hi-Res board designed with THE SCREEN MACHINE giving this game the beauty and style of chess. Black Tooth GOMOKU will exercise your mind and improve your strategy and your ability to think ahead.

REQUIREMENTS: 48K DISK II Drive Price: \$19.95

## CROSSWORDS

ATTENTION, Crossword fans!!! There is no need to wait until Sunday to work a crossword puzzle. Now, with your APPLE II and CROSSWORDS from Softape, you can solve the puzzles any day of the week. CROSSWORDS contains 24 different Hi-Res crossword puzzles for your enjoyment. You can also modify existing puzzles or create your own. It's great for improving your spelling and expanding your vocabulary. And the best part of all—you'll never have to get up to sharpen your pencil.

REQUIREMENTS: 48K DISK II Drive FP Basic  
Price: \$29.95

## FORTE

FORTE is an interpretive language devoted to the playing and writing of music. This language allows the operator to access the music playing capabilities of the APPLE II, in a way that, up until now required hours of tedious calculations and coding to play only a few notes. With FORTE, all of the hard work has been done for you, allowing your creative instincts to take over.

The music written in FORTE is as easy to enter, list and edit as programs written in Basic, Debugging a program is even easier. If the user is familiar with BASIC, then using FORTE will be a snap.

FORTE can either play music through the built-in speaker in the APPLE or output the music through the cassette output port to an external amplifier. Programs written in FORTE are easily saved to disk or cassette and can be easily outputted to a printer for listing.

FORTE was developed to be easy and fun for the beginner, yet capable of handling the most complex passages the veteran musician can devise.

**REQUIREMENTS:** 48K DISK II Drive Price: \$29.95

## DISK UTILITIES

If you own a Disk Drive then this set of programs is for you. Five programs that allow you to better organize and maintain your disk files. The package includes:

- Single Drive Copy
- Catalog Alphabetizer
- Delete and Undelete files
- Binary files-Statistics and length
- Disk status-unused space
- Lock/unlock all files

Also included is the Menu system, allowing the user to select programs from the catalog via the arrow keys. Optimum use of the Menu system would be to use it as a HELLO program for a diskette. A 20 page manual is included to take you step by step through the programs.

This set of programs sells for \$29.95. That's less than five dollars per program. An excellent investment.

**REQUIREMENTS:** 48K DISK II Drive Price: \$29.95

## APPLE-LIS'NER

Now you can communicate with your APPLE via spoken words without additional hardware costs. By using your cassette recorder and a microphone, APPLE-LIS'NER will listen for the words or phrases that it has been taught and respond under program control. An APPLE-LIS'NER vocabulary requires less than 1K of memory for a 31 word vocabulary and it is compatible with APPLE-TALKER for real conversation software.

The package is easy to use and comes complete with a "PREFIX" program and all the necessary documentation needed to write your own programs with voice recognition.

**REQUIREMENTS:** 32K DISK II Drive INT Basic Price: \$29.95

## APPLETALKER

Give your Apple II the power of speech!! Your programs can now talk to you. Any Apple with 48K can use this incredible program. The APPLETALKER, which accepts voice or audio information through the cassette input port, digitizes the information and stores it in numbered tables in your computers memory (RAM). The stored information may then be played back using the speaker built in to the Apple. You can also SAVE the tables to tape for later use. Audio tables or "Talker Tables" are created using your cassette recorder and microphone. By using the APPLE-TALKER subroutine package (included) and a few lines of basic, you can use the "Talker Tables" that you create to give any Apple program the power of speech without the hardware costs!!! Also, included in the package are the programs "Talking Calculator" and "Tic Tac Talker", created using APPLETALKER.

APPLETALKER comes complete with all the routines and documentation you'll need, so you can get started writing talking programs right away.

**REQUIREMENTS:** DISK II Drive  
48K INT Basic Price: \$29.95

## FORTH II

FORTH is a threaded language which has been in use since the 1960's and now there is a version which has been designed for use exclusively on an APPLE II computer. FORTH is many times faster than BASIC and after a little use, it will become as easy to program. Some of FORTH's features include: memory efficiency, simple to debug, disk based editor and compiler and verbs for graphics, game I/O, sound, disk and tape I/O. So, if you've been planning to go beyond BASIC, then this is the language for you.

## BLANK DISKETTES

Don't let diskette costs get you down. Softape diskettes have the quality you demand for a price you'll like. Each diskette is tested and certified to be of top quality. The reinforcing hub ring gives added strength for years of dependable storage.

100 diskettes	175.00
50 diskettes	92.50
10 diskettes	19.95
5 diskettes	10.50

## ORDER INFORMATION

Softape products can be found at all finer computer stores or from Softape. Orders are shipped by UPS or U.S. Mail unless otherwise requested. Shipping charges will be added to all orders.

Softape guarantees all it's products to be free of defects in material and workmanship.

Softape will gladly replace any defective product within 30 days with proof of purchase.

# DROWNING IN PAPERWORK?

The MAGIC WINDOW word processing system lets you breath easier.

MAGIC WINDOW's overwhelming appeal among experts and novice computer users originates from its simulation of a standard type-writer. Add three types of disk file storage, four way scrolling providing full viewing of 80 column documents, logically placed and easy to learn single key editing commands, and you have a word processor that is truly magical.

## ANNOUNCING BASIC MAILER

BASIC MAILER is a mailing list merge system designed to take MAGIC WINDOW document files and replace names, addresses or any other section of the document with individual data, creating customized letters, invoices, etc. BASIC MAILER uses the same human engineered menu systems used by MAGIC WINDOW.

Together MAGIC WINDOW and BASIC MAILER create an affordable, powerful and professional word processing mailing system. The uses for either of these systems are almost unlimited.
