NUTCRAKA

In this graphically superb game you take the role of Cyril the Squirrel, who is in constant search of food. Guide him safely around the countryside collecting nuts ready for his winter hibernation. Once all the nuts have been collected you then go onto the next stage of the game. Not as easy as it sounds. You must be aware of the roaming animals which wander the countryside, contact with any of these is fatal and do not forget the restrictive time limit for each stage of the game, so don't stay around any longer than necessary.

Scrolling action and large graphics make this a very enjoyable and playable game.
