THE POWER OF
ADAM™
AND PROGRAM
YOUR FUTURE

ADAM™

THE COLECOVISION™ FAMILY COMPUTER SYSTEM

MEET ADAM™ THE COLECOVISION® FAMILY COMPUTER SYSTEM.

Now, command the powers of a fully-networked 80K computer system. Adam. The power of a professional keyboard. A built-in word processor program. High speed digital data memory drive. Daisy wheel printer. And Super Game™ System. *All in one package.*

ADAM™ thinks like you, so you don't have to think like a computer.

Until now, people had to adapt to computers to use them. You had to spend a lot of time learning "the computer's language."

Not Adam. Adam actually adjusts to the way you think and "talks to you" with simple pictures and words.

So every member of the family can start working with Adam

right away. For home, school and super arcade game play.

ADAM™ Software goes beyond "State-of-the-Art".

Adam uses a totally new kind of software, a highspeed "digital data pack". It can load programs with amazing speed and store up to 250 pages of double spaced typewritten text.

ADAM™ performs tasks no ordinary home computer can.

Adam has a built-in 80K memory, which expands to 144K. So your memory workspace is enormous, giving you

more flexibility than any ordinary home computer.

But that's just the beginning.

Adam components are actually six separate computers, all working in harmony with each other as a *network* called Adam Net.™

So, while one component is working on one task, other Adam components are automatically taking care of others.

ADAM™ gives you a professional keyboard.

The Adam keyboards is more advanced than those found in many of the more expensive computers.

The Adam keys are stepped and sculptured for maximum efficiency. There are 75 full

uses standard ribbon cartridges and interchangeable daisy wheels for different type styles. There's a 9½" wide carriage for either single sheets or fanfold paper. And the Adam printer types in both directions at a rate of 120 words per minute.

ADAM™ comes with three SMART™ software programs.

The SmartWriter™ Word Processor Program is *built into the system*. So you can edit and revise as you write making even the most difficult writing simple and fun. Adam rearranges words, sentences, even entire paragraphs. And a SmartBasic™ digital data pack, which is source code compatible with AppleSoft® 8K Basic and the Buck Rogers™ Planet of Zoom™. Super Game pack are also included.

ADAM™ will have a wide range of software.

Adam Smart Software for

every member of the family. Like Financial Management, with the Adam integrated information management system. (We call it SmartFiler.™) Interactive learning programs, adventure games, strategy games, and more arcade favorites.

ADAM™ is the best game player you can buy.

The Adam Super Game™ System unleashes super graphics. All the arcade screens. All the bonuses. All the intermissions. Even a "Hall of Fame." Adam includes the Buck Rogers™ Planet of Zoom™ Super Game pack, two joystick controllers, and plays all ColecoVision cartridges and accepts all ColecoVision expansion modules.

ADAM™ comes in two models. Both do exactly the same thing.

Adam is also available as an expansion module for your ColecoVision® Video Game System. If you already own ColecoVision all you have to do is plug in the Adam computer module, and begin working with the most sophisticated family computer system you can buy.

travel keys, plus numeric keypad with joystick cursor control. And the keyboard attaches to the memory console with a coiled cable for comfortable and convenient use. So you can even type on your lap!

The ADAM™ Printer gives you a high quality electronic typewriter at home.

Adam comes with a letter-quality, daisy wheel printer (a peripheral that would cost you as much as the entire Adam system in many other home computers). It's an 80 column printer that

TECHNICAL SPECIFICATIONS OF ADAM™ THE COLECOVISION® FAMILY COMPUTER SYSTEM

■ Memory Console

- Z 80 A 8 bit CPU plus three other microprocessors
- 80 K RAM expandable to 144K with optional 64K RAM module
- Colors – 16
- Max. resolution – 256 H x 192 V
- Max. text display – 36 columns x 24 lines (optional 80-column adapter – monitor required)
- Sound channels – 3. Covers 5-octave range and one white noise source
- 4 parallel BUS expansion slots (3 internal, 1 external)
- 1 ColecoVision® game cartridge slot
- 1 digital data drive with expansion port for second drive
- ADAM-Net™ expansion port for connecting up to 13 additional peripherals
- RF modulator for attachment to any TV
- Composite video output connector, including a separate audio output pin, for attachment to a monitor*

■ SmartWriter™ Printer

- 10.5 CPS, approximately 120 WPM speed
- 80-column capability
- Can print super and sub-scripts
- Bi-directional printing capability
- Takes standard 96-character, 10-pitch daisy wheel printheads (Pica 10 daisy wheel included)
- Takes multistrike film ribbon cartridges (1 black ribbon included)
- Built-in microprocessor
- Takes single sheets or fanfold paper
- Friction feed standard; tractor feed optional and available in 1985

■ Keyboard

- Professional-quality "QWERTY" keyboard
- Full-travel keys are sculptured, stepped, color-coded
- Total of 75 keys and buttons
- 10 Command Keys
- 54 typewriter keys
- 6 unique multi-function SmartKeys
- 5 cursor control keys
- Built-in microprocessor

■ Multi-Function Joystick Controllers

(Not included with ADAM™ Expansion Module #3)

- 12 numeric buttons on detachable numeric/keypad-controller
- Joystick also acts as cursor control
- Controller Cradle for attachment of one controller to keyboard

■ High-speed digital data packs

- Each stores the equivalent of up to 250 double-spaced pages of text
- Storage is digital for reliable data transfer
- Self booting and auto loading

■ Accessories included in package

- SmartBASIC™ digital data pack
- BUCK ROGERS™ Planet of Zoom™ Super Game Pack
- Built-in SmartWRITER™ word processing program
- One blank digital data pack

■ Optional Peripherals:

- Single sided double density 360K disk drive
 - 300 baud direct connect phone modem.
 - 64K memory expander
 - Assorted daisy wheels, ribbons, blank data packs, and disks
- Optional software programs: a vast array of educational, manager and game software will be introduced in 1984. Here is a sample listing:
- Smart Logo™
 - Logo step by step
 - Simple calc
 - Smart filer
 - Adam calc
 - Recipe filer
 - Home helper address filer
 - Smart letters and forms
 - Electronic word book
 - Seuss story factory
 - Electronic flash card maker
 - Typewrite
 - Arcade favorites including Donkey Kong, Donkey Kong Junior, Dragons Lair, Summer Games, Temple Apshai

Certain software and peripherals are not presently available. The status of these projects are subject to change without notice.
*not included in the expansion model n° 3.
