Frederik Pohl's GATEWAY

"Vastly superior graphics" - Strategy Plus Magazine

Get rich quick or die! You strap yourself into an alien starship whose destination was programmed 500,000 years ago by a race called the Heechee. At journey's end you may discover a motherlode of technology that will make you rich. More likely you will die. Based on Frederik Pohl's Hugo and Nebula award-winning series, you discover the terrible secret behind the vanished Heechee civilization and enter a desperate

battle against an ancient race called the Assassins. The dramatic conclusion takes place in a cyberspace virtual reality drawn from the nightmares of your own subconscious! Hard disk required. Spellcasting 101: Sorcerers Get All the Girls

From the scandalous imagination of Steve Meretzky

Ernie Eaglebeak has two career options - dragontending or sorcery. Dragontending demands long days roasting under the acrid breath of temperamental dragons. Sorcery offers a 4-year romp through Sorcerer University...4 years of frat parties, scantily clad co-eds, reckless behavior - and plenty of adventure. Tough choice! From battling dragons in the simulation lab to surfboarding through the magical realm of Peloria, join Ernie as he fights to save Sorcerer University from the clutches of his evil stepfather, Joey Rottenwood. Naughty and nice modes. EGA and VGA: hi res 16-colors. CGA, MCGA, TGA: hi res black/white.

Spellcasting 201: The Sorcerer's Appliance

Another tale of high education and low morals from Steve Meretzky!

Ernie is back at Sorcerer U. for his sophomore year and wants to join a fraternity. No problem, except for the vindictive pledgemaster who burdens Ernie daily with a ridiculously impossible hazing task. Ernie needs help...and using the Sorcerer's Appliance he creates Eve, the ideal helpmate. Well, maybe not ideal but certainly entertaining. Ernie and Eve embark on a hilarious romp through the bedrooms, turrets and tunnels of Sorcerer University and nearby Barmaid U. (where grading on a curve takes on a whole new meaning). To pass this course, you'll need to cast ridiculous spells, solve ribald puzzles and interact with gorgeous women. Any questions? We didn't think so. Naughty and nice modes. Hard disk required. EGA and VGA: hi res 16-colors. CGA, MCGA, TGA: hi res black/white.
