MicroProse Just For Fun.

F-19 Stealth Fighter. MicroProse delivers sheer excitement in the most modern, hi-tech flight simulator you can buy, based on the top-secret jet designed to be invisible to enemy radar. Sneak and fight your way past MiGs and SAMs, strike your target, then return to safety on land bases and aircraft carriers. IBM-PC/Tandy/compatibles version features incredible Super 3-D Graphics and eleven stunning "camera angles" on the action.

for C-64 (44.95), IBM-PC/Tandy/compatibles 384k RAM (69.95).

Red Storm Rising. Immerse yourself in nuclear submarine technology. Pinpoint enemy ships and subs with sonar and radar — and keep them from zeroing in on you. Once you know who's out there — and where — you have the latest torpedoes and missiles designed just for them. Based on the best-selling novel by Tom Clancy, developed with his advice.

for C-64 (44.95) Atari ST (44.95)
and IBM-PC/Tandy/compatibles 384k RAM (54.95).

Red Storm Rising by Tom Clancy © 1986 by Jack Ryan Enterprises Ltd. and Larry Bond.

M1 Tank Platoon. Command a full platoon of four awesome tanks. Give orders to just one of your tanks or all four at once. Jump into any of sixteen positions to take over as commander, gunner or driver in any M1. Call in air support, infantry, even other tanks to help. Spectacular Super 3-D Graphics create real-life, real-war rolling terrain.

for IBM-PC/Tandy/compatibles 512k RAM (69.95).

F-15 Strike Eagle II. Fixing for a good dogfight? Then this is the flight simulator for you. No experience? No problem! Turn on all the options for beginners. Hard-core? Then turn off all those easy options and fly by the seat of your pants. The original F-15 Strike Eagle has sold nearly a million copies worldwide. Now it's re-born with Super 3-D Graphics!

for IBM-PC/Tandy/compatibles 384k RAM (54.95).

Sword of the Samurai. Ninja are out to do you in. Mighty warlords move armies to take your land. Worst of all, rival samurai hatch treacherous plots to diminish your all-important Honor. The game is an innovative combination of action, adventure, role-playing and historical simulation. Original drawings and music evoke the mood of medieval Japan.

for IBM-PC/Tandy/compatibles 512k RAM (54.95).

Pirates! Take a Caribbean fling! Sail to 50 island towns for fame and fortune in this adventure role-playing hit. Be a wild buccaneer or a refined nobleman in scenarios authentically based on the rich history of the Spanish Main. Dig for riches, bombard fortresses and other ships, invade coastal towns with your rag-tag crew, and pursue hundreds of unpredictable twists of fate.

for Apple II (44.95), Apple IIgs (44.95), Atari ST (44.95), C-64 (44.95), IBM-PC/Tandy/compatibles 256k RAM (44.95), Macintosh (59.95).

Airborne Ranger. You're outnumbered far behind enemy lines, but you have surprise and superior training on your side. Rescue hostages, destroy enemy munitions dumps, cut an adversary's pipeline — plus nine other objectives that never play the same way twice. Each mission is timed. The perfect game when you have only a few minutes for fun.

for C-64 (39.95) and IBM-PC/Tandy/compatibles 512k RAM (44.95).

Gunship. Lift yourself in the Army's most awesome attack helicopter. Roar through four regions to support infantry and armored units. Skim treetops, pop up from behind hills to strike and then dive back to safety. In a pinch, jam enemy radar and fool incoming missiles with sophisticated electronic defenses.

for Amiga 512k RAM (54.95), Atari ST (54.95), C-64 (39.95)
and IBM-PC/Tandy/compatibles 256k RAM (54.95).

Coming Soon from MicroProse

MicroProse will deliver all the action and strategy you've come to demand in a computer game, and in more exciting ways than ever before:

Espionage action. You're an American, British or Israeli agent in the intriguing world of international espionage. Tapping phone lines, cracking codes and capturing criminals is just part of the job. You'll also uncover criminal plots of global proportions and face international terrorism, political corruption and the brutal power of hostile governments. Get ready for strategy, role-playing and non-stop action!

Superpower conflict. Do you have what it takes to command a worldwide military effort? In World War I, II, or III? Move troops and artillery, call in air strikes, achieve total domination of the sea — test the most successful military theories of all time, or create and implement a few of your own. One and two-player (modem) playing options mean unlimited challenges, unlimited fun.

Create a railroad empire. Span the continent with routes, signals and switches you design and trains you dispatch. Bridge the years from the gritty days of coal and steam to the gleaming, modern diesels. Race against Morgan and Vanderbilt to control new markets and build an industrial empire. Is this any way to run a railroad? It's the only way!

An updated classic. Silent Service won critical and popular acclaim as the definitive World War II submarine simulation. **Silent Service II** picks up where its predecessor left off — with enhanced, digitized graphics and thrilling new game options that give you even more decisions, even more intense action.

all for IBM-PC/Tandy/compatibles!

Medalist International Just For Fun.

Carrier Command. Your computer is the nerve center for a desperate 22nd Century war. Your main weapon: an awesome ship carrying fighter jets, amphibious vehicles and a laser cannon. Your main enemy: your own ship's twin, commandeered by terrorists. Choose a strategy game when you want to test military theories, or get down and dirty with a pure arcade action extravaganza.

for IBM-PC/Tandy/compatibles 256k RAM (44.95).

Starglider II. In this sequel to the smash hit Starglider, Imperialist Egrons build a death station to destroy the peaceful world of Novenia. Beam projectors on seven moons guard the construction. Your ship is amazingly maneuverable and packed with firepower. Rocket from planet to planet to gather resources for your attack.

for IBM-PC/Tandy/compatibles 512k RAM (44.95) and Macintosh (49.95).

Weird Dreams. Like a computer ink-blot test, the bizarre scenes, puzzles and challenges in Weird Dreams will be different things to different people. Some will think them funny, others will find them unsettling, still others will be outright offended. Decide for yourself. One thing is certain: there has never been a computer game like it.

for Amiga 512k RAM (39.95), Atari ST (39.95), C-64 (29.95) and IBM-PC/Tandy/compatibles 256k RAM (39.95).

Rick Dangerous. He's a desperate hero for desperate people. He's also the most fun you'll ever have at your computer. Armed with a six-shooter, "some" dynamite and a big stick, Rick takes on Amazon tribesmen, Egyptian assassins and the ruthless might of the Third Reich. Try the life of Rick Dangerous for a hilarious, action-packed good time.

for C-64 (\$29.95), Atari ST (\$34.95), Amiga 512k RAM (\$34.95) and IBM-PC/Tandy/compatibles 512k RAM (\$34.95).

Midwinter. The world is locked in perpetual winter, and a mad dictator from the north declares war on the peaceful villages that remain. Mobilize the officers of the Free Village Peace Force, taking advantage of their personalities, abilities and skills. Defend your region while leading a hit squad into enemy territory. Midwinter is an action-packed test of your strategic and leadership skills.

3-D Pool. Apply top-spin, back-spin, or make the cue ball swerve left and right. With 3-D Pool's ingenious click-and-shoot controls, you won't walk around the table to line up your shot, you'll rotate the table instead. 3-D Pool includes a trick option that lets you work on classic "impossible" shots and design your own as well.
for Amiga 512k RAM (34.95), Atari ST (34.95), C-64 (29.95) and IBM-PC/Tandy/compatibles 512k RAM (34.95).

RVF Honda. Race the 750cc, 4-stroke Honda RC30 at 170 mph around some of the hairiest tracks in Europe, Japan and the USA. With realistic controls and a manual full of racing tips, photographs and diagrams, RVF Honda is a great way to prepare for the challenge of Formula One racing.

for Amiga 512k RAM (39.95), Atari ST (39.95) and IBM-PC/Tandy/compatibles 512k RAM (39.95).

Stunt Track Racer. Race over 200 miles per hour on narrow tracks hundreds of feet above the ground, with all the twists and turns of a rollercoaster — but without the guard rails. Fast-scrolling screens, breathtakingly dangerous courses and highly competitive tournament and multi-player options mean non-stop fun on the Stunt Track Circuit.

Spider-Man and Captain America in Dr. Doom's Revenge. Here's the world's first interactive comic book. Dr. Doom has called Marvel Comics' most fearsome Super-Villains to help him blow up New York City. Spidey and Cap follow your commands in over 30 battles to stop them. Each has the same abilities he has in the comics. A limited edition Marvel comic comes with the game to draw you right into the action.

for Amiga 512k RAM (39.95), C-64 (34.95),
and IBM-PC/Tandy/compatibles 256k RAM (34.95).

The X-Men. The Marvel Comic mutants face their arch-enemies Arcade and Magneto in Murderworld, the deadly amusement park of terror. You'll need keen reflexes and a sharp mind to survive over 500 action and combat screens! An original X-Men comic that leads up to the action is available only with the game.

for C-64 (34.95) and IBM-PC/Tandy/compatibles 256k RAM (39.95).

The Punisher. Marvel Comics' most intriguing "hero" dispenses the dark side of justice. You'll need strategic and arcade skills to survive

a world drowned in drugs, violence and corruption. Scour the streets of Manhattan in the Punisher's Battle Van. Get information from master-hacker Microchip. Over 100 mission options lead eventually to a showdown with Kingpin, the undisputed head of organized crime. coming soon for IBM-PC/Tandy/compatibles.
