INSTRUCTIONS & INSTALLA

EXTRA! EXTRA! EXTRA! Publishers Unite! You Benefit

Dear CD-ROM Enthusiast:

Congratulations on your purchase of Volume 2 of "The Original 5ft. 10 PAK™." Once again, Sirius Publishing introduces you into the exciting world of multimedia at a breakthrough price.

In the same tradition of Volume 1, this NEW volume packs 10 CD's of fun and entertainment into one incredibly priced collection. Like its predecessor, Volume 2 transports you to multimedia's galaxies of entertainment, games, reference, animation and more. It truly provides

you with hours of computing fun.

This is no gimmick! In an effort to introduce you to their titles, the software publishers featured here have joined together to provide you with a total multimedia experience — and you win! That's right, you benefit. This is your opportunity to explore multimedia and quickly build a CD-ROM library — all at a tremendous value.

Plus, we've included more than \$100.00 in software coupons so you can try our other fine titles and continue adding to your collection. Sirius Publishing also helps

you get "connected" by including 10 free hours of PRODIGY online service. Don't wait any longer. Break open your bundle, power up your PC and experience multimedia at its best.

Cordially,

Richard Gnant, President

INSTRUCTIONS FOR SIRIUS PUBLISHING

VERSION 4.0

PC KARAOKE FAMILY FUN

"A wonderful unexpected blast of a good time!" say's the Computer Shopper. Its multi media Karaoke excitement for everyone as your voice is backed up by actual CD-Audio recordings that sound just like the original hits. And with PC KARAOKE's computer assisted annotation, anyone can sing like a professional in perfect time with the music. Step up to the mike and belt out a tune!

- ▶ Make sure you have 4MB of free hard disk space.
- ▶ Insert *PC Karaoke: Family Fun* into your CD-ROM drive.
- ▶ Under the Program Manager in Windows, select **Run** from the **File** menu.
- ▶ Type **D:\setup.exe** where "**D**" is the letter of the CD-ROM drive.
- ▶ Follow the on-screen instructions.
- ▶ Start the program by double-clicking the *PC Karaoke* icon.

The main window is a menu of the different songs on the disc. Click once on the song title to start a song and press [Esc] to stop a song. The lower left corner is a Mixer Button and in the lower right is the Exit Button. To exit *PC Karaoke*, select the Exit Button from the main window.

MIXER CONTROLS

PC Karaoke directly links to many sound cards so you have access to volume controls within the program. To run the *PC Karaoke* mixer, select the Mixer Button in the lower left corner of the main window. If a message appears at the bottom that says *"THE SOUND CARD YOU HAVE CHOSEN DOES NOT SUPPORT INTERNAL MIXER CONTROLS"*, simply use the scroll arrows next to **Unlisted Sound Card** to select the sound card which your system supports. When the above message disappears, you will have access to microphone levels and volume controls from within *PC Karaoke*. Once the mixer control is set-up, the "↑" and "↓" keys will control the master volume.

If you have multiple *PC Karaoke* CD's and wish to switch song discs, simply stop the current song and eject the disc from the drive when you're at the main window. The computer will prompt you to insert the new song disc.

Many systems do not have their **MCI CD-Audio** drivers automatically installed when the CD-ROM is installed. This will appear as a MCI error of varying types. To install it, use the **Drivers** icon under the **Control Panel** in the **Main** program group. Select [Add] and highlight [MCI] CD-Audio. Click [OK] and follow the on-screen instructions.

OK, Richard!
I'm sold ... sold ... **SOLD!!!**
You turn out the best 10 CD-ROM
Bundles available anywhere! Your
low prices blow my mind! So don't
bother writing me about every new
5 FT. 10 PAK™. Don't phone me. Just
send it to me **AUTOMATICALLY** and
charge my Bank Card (see back)
\$29.95 plus \$4.00 shipping and
handling after it's shipped. If
I'm not delighted, I'll send
it back for a full credit
refund within 10 days
— **GUARANTEED!!!**

INSTRUCTIONS FOR

PRODIGY®

The PRODIGY® service is your direct connection to more people, more places, and more fun. It's so easy. Just install the PRODIGY software and go. Whatever your interest, the PRODIGY services gives you new ways to make nearly everything you do easier, faster, and more fun. The only way to appreciate the PRODIGY service is to experience it for yourself. You can be online in minutes, so go ahead — and start getting more fun from your computer — and your life — today!

When you install PRODIGY from this disc, you receive 10 free hours of connect time during your first month of membership.

- Make sure you have 3.5 MB of free hard disk space.
- Make sure you have a modem; your modem is turned on; your modem is connected to a telephone line; and your modem supports baud rates between 2400 and 14,400 bps.
- Insert *PC Karaoke – Family Fun* into your CD-ROM drive.
- Under the Program Manager in Windows, select **Run** from the **File** menu.
- Type **D:\prodigy\prodins.exe** where “D” is the letter of your CD-ROM drive.
- Follow the on-screen instructions.
- Start the program by double-clicking the *PRODIGY Software for Windows* icon.

The *PRODIGY* software will install the necessary software to log on to the *PRODIGY* service. Once you've double clicked on the *PRODIGY Software for Windows* icon, double click on the **I Would Like to Connect to the PRODIGY system**. Once you're connected to the Prodigy system, you will be asked to supply information about yourself, then you will be assigned an account number and a password. You will then be logged onto the *PRODIGY* Welcome Screen and you'll be able to choose from the following buttons :

NEWS/WEATHER: read *Headline News* for the top news stories. Check the latest *Weather* forecasts for your town or virtually any city worldwide. Get a *Close-up* of today's hot topics. Join *Opinion Polls* and let your voice be heard. Keep fit with advice and reviews in *Health News*.

BUSINESS/FINANCE: use *Quote Track* to make informed decisions with continually updated stock quotes throughout the day. Explore the financial world with *Wall St. Edge*, our digest of financial newsletters. Consult online experts and other members on the *Careers* bulletin board. Use *Strategic Investor*, a comprehensive database of stocks and mutual funds. Do your banking at home with *Banking Online*.

SPORTS: catch the latest scoops, stats, and scores with *Sports News*. Compete with other golfers and play America's greatest courses on the *PRODIGY Network Golf Tour*. Shop *Sports Saver* for great deals on top brand equipment. Take a swing at big-league games and contests in *Sports Games*. Talk with fellow enthusiasts on the *Sports BB*. Set up your own personalized sports pages with *Sports Track*. Let other fans know what you think in our weekly *Sports Survey*.

COMMUNICATIONS: find the names of other members with the *Member List*. Visit the *Board Center* and explore bulletin board topics. Communicate with top personalities in the *Guest Spotlight*.

ENTERTAINMENT: try the national trivia quiz you really need *GUTS®* to play. Match wits with the computer and fellow members in a host of challenging games in *Game Center*. Keep up with your favorite day-time dramas with *Soap Operas*. Hear about the best music around with *Music Reviews*, *Classical Music* and *Music Charts*. See what's in the stars for you with *Horoscopes*. Communicate with fellow friends and fans on the *TV Bulletin Board*. Hear about the latest news and accolades first with *Movie News & Views* and *Awards*. Catch up on your reading with *Book Charts* and *Book Index*.

REFERENCE: from big screen to video check out reviews of thousands of films in the *Movie Guide*. Sample more than 3,000 recipes with an online *Cookbook*. Compare notes with other parents in the *Education BB*. Check into the *PRODIGY Inn* Directory before you take that weekend getaway. Find the right program for any computer task with our comprehensive *Software Guide*. Make informed decisions using a complete and always up-to-date library of *Consumer Reports* articles.

SHOPPING: buy, sell, or trade with other members via the *PRODIGY Classifieds*. Remember important dates with *Gift Reminder*. Shop some of America's finest *Discount Outlets* without leaving home.

COMPUTERS: learn more about hardware, software, and more in *Computer Basics*. Let a nationally know expert put the fast moving PC world with *Magid on PCs*. Exchange ideas with other members on the *Computer BB*. Get the score with the hottest computer games with *Gameware* and the latest educational programs with *Schoolware*. Talk with other members about business software, multimedia, peripherals, and more on the *Computer Support BB*. Visit *Ziffnet* for latest news and reviews, and thousands of ready-to-download programs. Learn more about the worldwide Electronic Highway on the *Internet BB*.

TRAVEL: use *Easy Sabre* to book the lowest available fares and *Easy QuikTix* for free overnight ticket delivery. Take an insiders look at major US cities before you visit them with *City Guide* and the *Mobil Travel Guide*. Visit the *Travel BB* before you leave for helpful advice. Let the renowned *Zagat's Guide* help you choose the perfect restaurant in whatever city you happen to be visiting.

HOME/FAMILY/KIDS: communicate with other parents, pet owners, and others in the *Homelife BB*. Trace your family tree with the help of *Gormely on Genealogy*. Drop by *This Old House*. Use an *Encyclopedia* with more than 30,000 articles. Visit online versions of the *Baby-Sitter's Club®* and *Sesame Street*.

MEMBER SERVICES: select this button to reach *Member Services*. Here you can find new about upcoming features, look into the latest pricing plans, get information about your account, and even make suggestions about how we can better serve you.

Enjoy!

INSTRUCTIONS FOR MICROSOFT

MULTIMEDIA JUMPSTART

An informative disc on virtually every aspect of multimedia. Assembled by the Microsoft Multimedia Developer Relations Group, you'll learn how developers integrate multimedia into everyday applications. You will also find useful tools like the Video for Windows v1.1 SDK, sample media, and a host of technical articles full of information and sample code.

- You may run the Multimedia Jumpstart CD without installing it to your hard drive. Type `D:\go.exe` where "D" is the letter of your CD-ROM drive.
- Multimedia Jumpstart copies Visual Basic custom controls and DLL's into your windows system directory. If you do not want this to happen, then run the program from the CD-ROM.

- Make sure you have 1 MB of free hard disk space.
- Insert the Multimedia Jumpstart CD into your CD-ROM drive.
- Under the Program Manager in Windows, select Run from the File menu.
- Type `D:\ setup.exe` where "D" is the letter of your CD-ROM drive.
- Follow the on-screen instructions.
- Start the program by double-clicking the Jumpstart Program icon.

Explore! Explore! Explore! You can spend hours with this disc without seeing the same thing twice. You can use the Jumpstart Controller and Information Browser to view the various applications and tech notes or you can search through the CD with the File Manager in Windows. While the Jumpstart Controller and Information Browser are more convenient, the File Manager yields surprises unavailable under the Jumpstart Controller. There is a lot of cool stuff on this disc! Amateur users and the technically proficient alike can get an education from this CD. Don't be afraid to "play around" with it, you won't break anything.

USING THE INFORMATION BROWSER AND JUMPSTART CONTROLLER.

Development:

This button lists all the development articles on the CD. Simply scroll down the list you see in the Jumpstart Controller window and click on anything that interests you.

Sample Apps:

The Sample Apps button references many of the sample applications on the CD. Many other sample applications can be accessed using the File Manager to browse the `d:\samp apps` directory directly off the CD.

Sample Media:

This button references some of the media clips available on Jumpstart. Again, make sure you browse through the CD directory using the File Manager to find even more clips to sample. Look under the `d:\samp med` directory on the CD. *Allows you to browse through related topics you see in the window of the Jumpstart Controller.*

Search:

If you can't find what your looking for, try the full text search feature in Jumpstart. This useful feature is available when you author titles with Microsoft Multimedia viewer.

Help:

The help button will provide a map of the directories on Jumpstart. Click on any of the directories to find information on what they contain.

Always in front On/Off:

This toggles between the controller being always in front or, if you wish it not to be viewed, send it behind. Pressing [Alt] + [Tab] will bring the Jumpstart Controller back to the foreground.

Misc:

Marketing materials, slide presentations, Jumpstart credits, licensing agreements, etc.

OFFER EXPIRES JANUARY 1996

Exit: Exits the application.

To give you an idea of the types of applications and sample media on *Multimedia Jumpstart*, look in the following directories in the File Manager. They can also be viewed through the Jumpstart Controller and Information Browser. A lot of the executables on this disc are source code. Most are designed with only one task in mind. They may vary from simple animations to system-wide performance tests. Follow the instructions below for a "brief" overview of where these little gems can be found.

d:\developmt\sdk\vfw11.win\winvideo\setup.exe

Installs Video For Windows v1.1. If you have it already installed on your system, it will update the files. Be sure to check the "playback only" box if you do not want the software development kit (SDK) installed.

d:\developmt\sdk\vidtest\vidtest.exe

Video For Windows performance test. Load an .avi file to your hard drive and compare the results with your CD-ROM. This one is a must.

d:\developmt\tools\convert\convert.exe

A cool program that converts file formats for Audio, MIDI, Palette or Image files. View the documentation in the Information Browser for complete instructions.

d:\developmt\tools\upfront\upfront.exe

The smallest icon bar you've seen that always stays on top. Great for quick access to the file manager or launching executables.

d:\developmt\tech art\truetype\truetype.doc

Detailed technical article of TrueType fonts.

d:\developmt\source\roadshow\roadshow.exe

This directory has quite a few .avi, .bmp and .wav files.

d:\developmt\source\rlapp\rl.exe

View the readme.txt for a description. Run the program and load "dog.r10". Click on Play.

d:\developmt\source\lava\lava.exe

Adjust the different variables and play around. The palette animation is a must!

d:\developmt\source\cropdib\cropdib.exe

Crops Device Independent Bitmaps.

d:\developmt\examples\infobrws\playvfw.exe

Search here for all kinds of fun stuff! When you think you've found them all, look some more.

d:\samp_aps\intermed\aaawin.exe

Autodesk Animation player. Load and play the .flc files on the CD-ROM drive.

d:\samp_aps\musicpn\go.exe

If you have kids, go get them! They'll have fun with the wonderful exhibition of multimedia in Lenny's Music Toons.

BATTLE CHESS ENHANCED

Now you can experience the mortal combat thrill of chess more intensely than you've ever imagined. With bone-crunching battle sound effects, 3D animation and stereo voices that bring your chess pieces to life, **BATTLE CHESS** is a must for any MPC collection.

- Make sure you have 1 MB of free hard disk space for MPC installation. (Animations can also be installed for increased performance if 32MB of free hard disk space is available.)
- Insert *Battle Chess* into your CD-ROM drive.
- Under the Program Manager in Windows, select Run from the File menu.
- Type `D:\mpcchess\setup` where "D" is the letter of your CD-ROM drive.
- See *readme.txt* for DOS installation.
- Follow the on-screen instructions.
- Start the program by double-clicking the *MPC Battle Chess* icon.

For the latest information about *Battle Chess Enhanced*, view the *README.MPC* file on the CD-ROM. These instructions will assume for the most part that you have a basic understanding of chess, i.e. movement and the object of the game. For an informative multimedia presentation of each piece, see the Help Menu.

MOVING THE PIECES

To move a piece, just click on the square on which the piece is standing. Then choose the piece's destination by clicking on the square where you want the piece to move. The destination will flash if it is a legal move. If you choose a piece and then decide you want to move a different piece, just click again on the first piece's square to deselect it. To castle, just move the King two squares to its destination, the rook will know what to do on its own.

BATTLE CHESS MENUS

To make the menu bar appear, move the mouse pointer to the top of the screen. The menu bar will automatically appear and then you can choose menu options in the usual Windows fashion.

File Menu Exit, Load, Save or start a New game.

Move Menu Setup Board: Lets you set up the pieces on the board however you wish, to test strategies, play classic chess problems, or just give yourself another Queen if you are behind.

Force Move: Stops the computer from thinking and forces it to make the best move it has thought so far.

Take Back Move: If you make a mistake, use this option to take back one move on one side, so you get another chance. You can *Take Back* up to 60 moves.

Replay Move: If you decide you liked a series of moves you just removed with *Take Back*, use this option to undo the series of *Take Backs* one at a time. You can *Replay* as many moves as you have taken back.

Suggest Move: This option asks *Battle Chess* for a hint.

Options Menu 3D Board/2D Board: Switches between a 2-dimensional and 3-dimensional board.

Difficulty: Only one level may be active at a time.

Red and Blue: Human, Computer or Modem. You can only select one of these options at a time for each color.

2000 FONTS

Dress up your documents with any font you could imagine. From bovine B's to Swiss cheese C's, *Fantazia Concepts* has over 2000 unique fonts that will liven up every document. All fonts are both True Type and Type 1 formats and a must for any word processor.

- This product requires no hard disk space.
- Insert *2000 Fonts by Fantazia* into your CD-ROM drive.
- Select your CD-ROM drive from the DOS prompt. E.g., to select the "D" drive, type `D:<enter>`.
- Type `fontmenu <enter>`.
- Please check the *instruct.txt* for complete instructions.

Buy the book!
It makes viewing the fonts much easier.

To use this CD to its potential and increase your understanding of how fonts work with one another, take some time to look at advertisements and literature, notice how there are several different fonts on a page as well as how different variations of each font are used to add emphasis. Be creative and have fun, soon 2000 fonts just won't seem like enough.

2000 Fonts by Fantazia categorizes the fonts on the disc by style of print to make your search easier. If you are looking for a script style of print, you can go to the script section and choose fonts there instead of searching through all the fonts to look for the one script font you need. To make it even easier, no more than 100 fonts are in one directory.

The file name *Fantazia* uses for any font describes its character. For example, the fonts in the script section of the CD all start with "S" for script. The number following the "S" is the Font number, and the letters following the number are the styles and variations. Say you need Script 2 Extended. The filename would be "S2E". This also makes it easy for searches. Say you wanted to find any font on the CD-ROM that is Script 2, you could do a search for "S2*.*". If there is any contour, spotted, hollow, or any other variety of this font, it will show up.

MAIN MENU

Menu Options:	[Alt] + M	Gets you to the "Menu" options. You can <i>Browse</i> , <i>Select</i> , <i>Edit Tags</i> , <i>Copy</i> your selected fonts, or clear the Tags you have make so far.
<i>Browse:</i>	[F5]	When in "Browse", select the family of fonts you wish to <i>Browse</i> first. When you select the family that you wish to work with, you will get a list of fonts contained in the current directory.
<i>Select:</i>	[F6]	From here all you need to do is type in the file name you wish to search for and press [OK]. If the file name is on the drive, the menu will automatically bring up the "Work with Font" dialog box to let you choose or view the font. NOTE: Once you are done selecting fonts from the "Work with Font" dialog box, just select [CANCEL]. This <i>will not</i> untag the fonts, it is just used once you are done selecting fonts.
<i>Edit Tags:</i>	[F7]	This is used for last minute changes to your font list before you transfer the fonts to your hard drive.
<i>Copy Tags:</i>	[F8]	Copies the fonts you have tagged so far. You will be presented with a default directory. If you wish to use a different directory, then type it in.
<i>Clear Tags:</i>	[F9]	This option is used to clear all the fonts you have tagged so far. The menu does not automatically clear the tagged fonts after you transfer them.
Support Options	[Alt] + S	Gets you the "Support" options. Allows you to

Modem: These commands are only available when one color is set to "Modem" in the "Options" menu. It is best to discuss ahead of time who is red and who is blue. Who should call and who should receive.

Dial: Dials a phone number. Click on here if it was decided you would call.

Hang up: Hangs up your phone line.

Wait for Call: Lets another *Battle Chess* player call and connect. Click here if it was decided you would receive the call.

Send Message: Sends a message to your opponent.

Settings Menu

Music and Combat Sounds: Click <on>, click <off>.

Footsteps: Click <on>, click <off>.

Full Animation: This option will turn <on> or <off> all *Battle Chess* animation.

Animate Combats: This option enables combat animation, but turns <off> walking animation.

Quickplay: This option turns <off> all *Battle Chess* animation.

Animation Control: Allows you to control various aspects of the animation frames.

Help Menu

Click on everything once.

Many systems do not have their **MCI CD-Audio** drivers automatically installed when the CD-ROM is installed. This will appear as a MCI error of varying types. To install it use the **Drivers** icon under the **Control Panel** in the **Main** program group. Select [Add] and highlight [MCI] CD-Audio. Click [OK] and follow the on-screen instructions.

Sales: (800) 428-8200
Fax: (714) 252-2820
Tech Support: (714) 553-6678

Exit Menu [Alt] + X Exits the menu.

Close Window [Alt] + F3 Closes the current window. E.g., Select Family, Select Font, etc.

HOW TO INSTALL FONTS IN MICROSOFT WINDOWS V3.1

The first step to installing True Type Fonts in Windows is to look for your *Control Panel* icon in the **MAIN** program group. Double click to open the *Control Panel* and double click to open the *Fonts* icon. When in *Fonts*, clicking on the [Add] button will bring up the [Add Fonts] dialog box which enables you to add the fonts you wish. Select the proper drive and directory and up will come a list of fonts in that directory. Click on the ones you want or click the [Select All] button. For detailed instructions regarding True Type Fonts, please consult your MS Windows v3.1 manual.

- ▶ Keep under 300 fonts installed.
- ▶ Keep groups of fonts in separate directories, it will make Font management much easier.
- ▶ It is not necessary to copy Fonts to the Windows System directory for the fonts to work.
- ▶ Use a Font management program to organize your fonts.
- ▶ To save hard drive space, run the fonts off the CD-ROM.

HOME MEDICAL ADVISOR

HOME MEDICAL ADVISOR provides information on diseases, injuries, drugs, diets, fitness, medical tests, household poisonings, and symptom analysis. The **HOME MEDICAL ADVISOR** helps you diagnose problems and helps decide whether or not a trip to the doctor is necessary. The user-friendly, interactive format asks a series of questions, just like your doctor would, and analyzes symptoms to help you make informed medical decisions.

- Make sure you have 5 MB of free hard disk space.
- Insert Home Medical Advisor into your CD-ROM drive.
- Under the Program Manager in Windows, select Run from the File menu.
- Type **D:\install.exe** where "D" is the letter of your CD-ROM drive.
- Follow the on-screen instructions. The Home Medical Advisor Options screen will allow you to set some specific characteristics of printing. Unless you are printing landscape (sideways), we would recommend you just click [OK].
- Start the program by double-clicking the Home Medical Advisor icon.

- The *Home Medical Advisor* installation will create a text file in your Windows directory called **hma.ini**. This file contains the information for printing and can be altered using any simple text editor like Notebook.
- When printing, the *Home Medical Advisor* will also let you print the document to a **.txt** file on the hard disk. This way you can bring it into your favorite word processor. Simply click on the **Print to File** box after you have selected the [Print] option and give the file a name.

KEYBOARD COMMANDS

[Alt] + S	SYMptom file
[Alt] + D	DISease file
[Alt] + I	INJury file
[Alt] + P	POlson file
[Alt] + T	TEST file
[Alt] + R	Rx Drug file
[Alt] + H	Health & Diet file
[Tab]	Scrolls through buttons.
Arrow keys	Navigate the list when the [Tab] key is highlighting that area.

GENERAL PROGRAM INFORMATION

SYMPTOM FILE [Alt] + S

The Symptom file is a listing of 70 of the most common CHIEF COMPLAINTS. Each one of these CHIEF COMPLAINTS can represent a number of diagnostic possibilities. A CHIEF COMPLAINT is the key Symptom. For example, a patient who has pneumonia complains of breathing difficulty. Associated with the breathing difficulty may be a cough, fever, chills, and nausea. None of these symptoms are as serious to the patient as breathing difficulty. The patient has targeted their CHIEF COMPLAINT as breathing difficulty.

For each CHIEF COMPLAINT there will be a short introduction screen explaining the symptom. This will be followed by the DIFFERENTIAL DIAGNOSIS MENU. This is a listing of diseases which can manifest with the CHIEF COMPLAINT. Because it is a menu, you can reference each diagnostic possibility directly, bypassing the computer guided Question and Answer session. The easy to use Question & Answer format can formulate up to 400 potential diagnoses through the use of over 1,400 questions with the aid of over 600 color VGA illustrations.

Try investigating your problem from several different angles or CHIEF COMPLAINT's.

SPACE QUEST IV

SPACE QUEST IV multimedia must be experienced to be believed. Ever hear an alien talk? Ever hear a sniveling space hero or a giant mutant sea slug? Well, you're about to when you join **ROGER WILCO** and the **TIME RIPPERS** on a fantastic journey through the future. Stumble through time and space, staying one step ahead of the savage **Sequel Police**. They're out to make sure this is the last **SPACE QUEST** ever!

- Make sure you have 6 MB of free hard disk space.
- Insert *Space Quest IV* into your CD-ROM drive.
- Under the Program Manager in Windows, select Run from the File menu.
- Type **D:\setup** where "D" is the letter of your CD-ROM drive.
NOTE: D:\install.exe is for DOS installation.
- Follow the on-screen instructions.
- Start the program by double-clicking the *Space Quest IV* icon.

You may play your *Space Quest IV* CD directly from the CD by typing **SQ4 [parameter]** from your CD-ROM drive where [parameter] is one of the following configurations:

SB = SoundBlaster sound & audio
MT = MT-32 sound/SoundBlaster audio
PRO = ProAudio sound & audio
STD = Standard PC speaker sound/SoundBlaster audio
THN = ThunderBoard sound & audio
GEN = General MIDI sound/SoundBlaster audio

This option will not write to your hard drive so you will not be able to save the game. You may experience a general slowdown due to the significant amount of CD-ROM access. This will be more noticeable on slower CD ROM drives and 386 based systems.

To open the icon bar, press [ESC] or move the cursor all the way to the top of your screen. The icon bar contains the icons that can be selected to execute the command choices available to you. They are listed below. Some icons will have a menu of choices. Use the [Tab] key, mouse or joystick to move between choices within an icon menu.

Walk Icon

Choose **Walk** when you want to move the character from place to place on the screen. A walking character will move until it encounters an obstacle in its path, then stop.

Look Icon

Choose **Look** when you want to have the character look at something on screen.

Action Icon

Pictured as a hand, the **Action** icon will perform an action on an object. E.g., getting a drink from a pond, jumping onto a rock, etc. The necessary action will be performed automatically.

Talk Icon

Choose **Talk** when you want to initiate a conversation between game characters.

Smell Icon

Choose **Smell** when you want to take a good, hearty whiff of something.

Taste Icon

Choose **Taste** when you want to try tasting something.

Item Icon

The **Item** icon shows the last inventory item you selected. Choose **Item** when you want to see or use the object.

Inventory Icon

Pictured as a purse, choose **Inventory** when you want to see and select from the items you are currently carrying. You can use the **Look** or **Action** icons to perform tasks within the **Inventory** screen. E.g., putting jewels you found into a pouch you found.

Control Icon

The **Control** icon allows you to adjust the speed, volume and game detail. If your game is running too slowly, you may want to adjust the Game Detail to eliminate non-essential animation. **SAVE, RESTORE & QUIT** functions are also accessed via the **Control** icon.

DISEASE FILE [Alt] + D

This is an alphabetical index of over 500 diseases with a complete discussion of their causes, common symptom presentations, physician evaluation and treatment. This file also includes a special section on children's health.

INJURY FILE [Alt] + I

This is an alphabetical listing of over 200 common injuries to the body. This file is also indexed by body parts.

POISON FILE [Alt] + P

This listing contains over 500 common household poisons and exposures. This file will tell you what to do and who to see for a variety of plant, medicinal, and household product ingestion's.

TEST FILE [Alt] + T

In no other area has medicine been more progressive than the field of diagnostic testing. This section provides an alphabetical listing of more than 160 of the most widely used medical tests. Each section will explain why the test is used, its diagnostic limitations, known risks, and possible complications.

Rx DRUG FILE [Alt] + R

The list of pharmaceutical agents is exhaustive and growing every year. In this file, you will find a listing of over 2,400 medications both non-prescription and prescription, with information on their uses, potential drug side effects, and drug interactions. All trade name medications are enclosed by (parenthesis) and are included for the purpose of increasing consumer understanding of all available generic and non-generic medications.

HEALTH & DIET [Alt] + H

Includes information on vitamins, minerals, nutrition, health, travel tips, safety and first aid, life-style health risks, travel vaccinations, weight loss and special diets.

GLOSSARY BUTTON

Brings up a complete listing of all Glossary Words.

HOT KEYS AND GLOSSARY WORDS

Highlighted text will indicate either a **Glossary Word** (yellow) or **Hot Key** (green) that can be chosen by clicking on that item. The cursor must change to a hand (pointing finger) before you can jump to a Hot Key destination or define a Glossary Word.

USING THE SCAN FEATURE

The **Scan** feature allows you to rapidly find a particular topic or access all sections of the database that apply to a particular part of the body. For example, if you enter the word **HEART**, the Scan feature will find all topics in the knowledge base that pertain to the **HEART**. If you Scan for a topic that has no match, try entering just part of the word rather than the entire word. If you do not find what you are looking for with the Scan, try looking in the Glossary.

Sales: (800) 788-2099
Fax: (407) 777-0323
Tech: D:\HMA.TXT

Information Icon

Pictured as a question mark, choose **Information** when you want to be reminded what the various icons do in the game.

OBJECT CURSORS

Each item in your inventory has a special **Object** cursor. These can be used to perform game actions with your inventory items. Follow these steps:

- Choose the Inventory icon from the icon bar.
- Move the arrow to the inventory item you want to use and click.
- The cursor will change to look like the item you have selected.
- Click on "OK" and you will exit back to the game.
- Move the Object cursor to the place on screen where you want to use the inventory item and click.

CHEAT NOTES

Space Piston Safety Tip: AVOID THE CYBORGS!

Continue reading ONLY if you have trouble getting started playing Space Quest.

As you arrive on the streets of Xenon, click the **EYE** cursor on various locations on the screen to learn about your surroundings. Walk one screen East and click the **HAND** cursor on the rope in the lower right side of the screen. Avoid the Cyborg if he should appear. Walk between the red columns on the upper right side of the screen. Select the rope from your Inventory window and click the **ROPE** cursor on the ground. Wait for the bunny to walk into the noose, and click the **HAND** cursor on the rope. Walk two screens East. A Skimmer is parked on the street. Click the **EYE** cursor on the skimmer. Click the **HAND** cursor on the skimmer to search it. Click the **HAND** cursor on the glove box to open it, and click again to take the PocketPal inside. Walk one screen North. Click the **EYE** cursor on the hole in the side of the tank. Now would be a really good time to **SAVE YOUR GAME!!** Click the **HAND** on the unstable ordnance to take it. Walk two screens West, to the opposite street corner. Click the **HAND** cursor on the sewer grates, until you find one you can climb into. After you explode, restore your game and **DON'T** take the unstable ordnance. Return to the sewer grate, descend below the city, and enjoy the rest of the game!

- In order to save games, you must install *Space Quest IV* to your hard drive.
- Save your game frequently. You never know when you might get killed!
- On a two or three button mouse, the right button will cycle through available cursors.
- If you wish to pause the game, select the Controls Icon from the icon bar. The control panel states the game is paused. The game will pause until you select **PLAY** to resume.
