**H**ungry cannibals have captured a fair maiden. To save her you must traverse the treacherous jungle terrain, swing from rope, swim Reptile River, dodge cascading rocks and more.

**Y**ou're the driver of a powerful Grand Prix racing car, working your way around the treacherous road course. Watch out for those curves, road hazards and other cars if you want to make it through the qualifying lap.

**E**n garde! The skies are full of fierce warriors riding belligerent armored buzzards. It's your lance against theirs as you fly into the joust, jockeying for survival.

**D**onkey Kong steals Mario's girl, takes her to his hideout, and dares the intrepid little hero to fight his way up to save her.

**J**ust like the arcade game, the robots are out to get you. Your only hope is to outmaneuver them and then blast away with your laser. You also get extra points by rescuing humans. Clear one screen and you get a harder one.

**C**rawling toward you through the mushroom patch, the centipede is joined by his equally creepy companions, the spider, flea, and scorpion. But don't worry, they're all really quite friendly—so long as you keep them at a distance.

**P**robably the best-known video game since Atari invented Pong.® And Atari brings the original dot-gobbler and his ghostly pursuers to you with the vivid color and excitement of the arcade original.

**W**ould you like to dine with a lady who has a real appetite for fun and games? Join Ms. PACMAN as you eat your way through four different mazes featuring floating apples, oranges, pears, bananas and even pretzels.

**A**s the savior of an alien race, you soar over a blighted landscape on a desperate mission to save frightened humanoids from clouds of dreaded attack craft.

**T**he cheerful miner only wants to unearth his beloved fruits and veggies—but first he has to pop the dragons and monsters that guard them.

**H**elpless humanoids are stranded on the planet surface. You've got to reach them—fast. You warp ahead towards the star-gate. But the entire universe is blocking your way!!!

**C**an you meet the challenge of the mighty Galaxian fleet headed your way? Blast or be blasted, as wave after wave of winged warriors advance toward you from the heavens.

**Y**ou patrol sector nine, home of the toughest thugs in the galaxy. Fortunately your patrol car has anti-gravity jump buttons and laser bullets to deal with moon rocks, craters, hostile UFO's and tanks.
