## **GAME DESCRIPTION**

You are the "Chosen One" in this fully graphical adventure. Your mission is clear - find "Count Doom", kill him and so rid the world of the dreaded "Vampire." Not an easy assignment. The influence of "Count Doom" has terrified the whole population, fear and panic run high. A nation drained of energy, danger lurks everywhere. As a specialist member of the "crack" S.M.U. Courageous and positive decisions are to be taken by "you" as the "Chosen One" on this mission. Take along a trusted friend or two but remember it is you who must come face to face with "Count Doom" and "Win" - or you will never pass this way again. Good Luck.

## **PLAYING INSTRUCTIONS**

At the commencement of play you are inside the "House of Doom". There are 27 locations in the House. With each move a high resolution graphic of the location will appear on screen. After looking at the location "Press space bar" and enter your instruction. Your aim is to get out of the House and into "Doom Town" which has a further 36 Locations, go through the town and eventually be in sight of "The Castle of Doom" where, after getting inside, you will be faced with a further 27 Locations. When entering your instruction use a verb followed by a noun (as per examples shown on screen under "voc") and then press "Enter."

## **ADVENTURERS AID OBJECTS**

Objects which may help you to reach your final destination are "randomly" placed about the Locations in the game.

## **ADVENTURERS FACILITIES**

"Look" on its own will redraw the previous location, "Listen" will supply you with information on sound at location.

"Voc" will list the vocabulary available in play.

"Inv" will list an inventory of objects in your possession.

"Score" will give your percentage at any stage of play.

"Help" will attempt to guide you.

## **LOADING INSTRUCTIONS**
