CASTLE
QUEST

Sharp Approved Software

CASTLE QUEST

You are at the entrance to a 216 room castle on 7 levels, each with its own magic pass. The mission is to locate and retrieve the 3 treasures — Mail of Mithral, Black Crystal and Elf Stone. However you will be attacked by wicked monsters trying to destroy you. Are you clever and quick enough to out-think and out-fight them? A dastardly challenge but an adventure you will never forget!

LOADING THE PROGRAM: To play CASTLE QUEST first load Sharp Basic, then this program and then "run".

CARE OF THE PROGRAM: When not in use keep the tape in the case. In case of difficulty when loading please check (i) the tape heads have recently been cleaned and (ii) the settings of the controls of the tape recorder. Should a checksum error occur either the tape recorder or tape is faulty.
