Church of Death

CRONOSOFT

CHURCH OF DEATH

Many years ago, evil vampires took possession of the local parish church.

Things have never been the same again...

Stories of livestock and people going missing have been passed around the village for ages. Now it's time for the people to take back this sacred place — they're all right behind you to single handedly reclaim the church.

As the bravest adventurer from the village, your quest is to enter the vampire ridden church and banish them forever. To accomplish this, you must reconstruct the holy cross that has been shattered into pieces and throw it into the altar to vanquish the evil spirits.

As in many classic adventures, you can use verbs such as North, Get, Drop, Look, Inventory. Additionally, try more diverse verbs such as Help, Look, Up, Push, Say, etc.

Good luck with your quest. You'll need it.
