## WHAT IT'S ALL ABOUT

When the four Doctors - What, Where, When and Why got together for a party they didn't anticipate a simple problem. Getting home afterwards.

Travelling through the continuum of time and space under the influence of Neuro Cardial cocktails wasn't their best decision.

Several million light years, many eons and four hangovers later, What, Where, When and Why found themselves in a bit of a sticky situation.

Frazzled heads, sizzled ships and problem environments called for only one solution.

A trip to the Jelly Baby of Infinite wisdom and Ultimate knowledge in the tower of Darabur!

Why is in Whats laboratory!

What's totally lost!

When is stuck on a nasty planet!

Where Where is, is anybodys guess!

Where What is, why Where is where What is and when will get to where Where is,

and what will do when Why gets to where When is, (if he's not gone somewhere else) is up to you! ! !

## INCREDIBLY BRIEF INSTRUCTIONS!

A pulsing selector shows the position of the object to be dropped or if it is blank the position occupied by the object to be picked up.

The Doctors strength is determined by the Jelly Baby on the bottom right. It is gradually eaten away when the Doctor suffers energy loss.

That's all you are getting, so make the most of it!

What has ended up somewhere strange.  
Where is somewhere, it goes without saying.  
Why is in Whats laboratory - why worry!  
When is stuck in a pretty heavy predicament.

Don't ask Why.  
Don't ask Where.  
Don't ask When.

And especially don't ask What.

The Doctors are busy.  
Trying to reach the jelly baby of infinite wisdom  
and ultimate knowledge!

An arcade adventure with a difference. "What's the  
difference?" I hear you ask! But we already told  
you not to ask that!
