WORSHIPPING THE GODS:

When travelling on Midgard you may sacrifice some items to the gods Odin, Thor, Tyr, and Freya in their temples. These temples are small buildings with wood totems outside which indicate which god the temple was dedicared. Odin has a wolf totem, Thor a goat, Tyr a horse, and Freya a falcon. To sacrifice an item while you are in a temple just drop the item on the floor of the temple. The more items you sacrifice, the more powers you will be granted; each god may grant you up to five powers. You may cycle through the powers a particular god has given you by clicking with the right mouse button on the particular worship icon on the right side of the character sheet, or by pressing Alt-F1, Alt-F2, Alt-F3, or Alt-F4.
