Back Up Your Game Disks!

Before you go any further, it is highly recommended that you make back-ups of your game disks. Refer to your Amiga or Atari ST manual on how to copy disks.

Note: Make sure to rename the copies so that they are the same as the originals. For example, after copying Disk 1, rename the copy from "copy of DISK 1" to "DISK 1". Do the same for the 4 remaining disks.
