## **A TALESPIN ADVENTURE BY RUDYARD HEATON**

**TALESPIN ADVENTURE SYSTEM BY MARK HEATON**

### **How To Load The Game**

Insert the disk marked 'DISK ONE' into the disk drive and switch on the computer: the program will start loading. [If the computer is already switched on, you may double-click on TELLTALE.TOS to achieve the same result.] When requested, remove 'DISK ONE' and insert 'DISK TWO' into the drive and then, using the mouse, left-click on the relevant text. Alternatively, if you have more than one disk drive, you may insert 'DISK TWO' into a different drive and when 'DISK TWO' is requested, left-click on the 'Select drive/folder' part of the text in order to tell the system where to look for it.

### **How To Play The Game**

The Grail is a fully mouse-driven adventure, which uses the left mouse button to play the game (by clicking on different parts of the picture) and the right mouse button for control functions, such as re-starting the adventure, setting and finding placemarkers (previously saved positions within the adventure), selecting a different drive and/or folder, or returning to the Desktop. Left-clicking on characters in the story will produce sounds, texts or changes of scene; on passing the cursor over the texts, some parts may highlight: these are the available choices. Left-clicking on these may lead the characters to a different scene, or simply be part of an on-going conversation. Now it's up to you...!

**This adventure was created with the user-friendly TALESPIN system. If you think you'd like to create adventures like this without having to be a programmer, look out for a forth-coming product from MICRO-DEAL!**

## **IMPORTANT**

IF THIS FAILS TO LOAD PLEASE RETURN  
JUST THE DISK TO
