# MERLIN'S CASTLE

A K-TEK™ product for APPLE II™ computer systems

Merlin has been experimenting with mirrors again, and this time he's managed to hypnotize himself! Worse yet, the spell he's under is causing him to play terrible tricks on the local citizenry. Crops are disappearing and the kingdom is in a mess! Your mission is to enter the wizard's castle and, using a set of two word computer commands, find Merlin's wand and zap him with it. Remember, once you find the wand, you must pull a rope to summon Merlin and dematerialize him into a nice long rest.

- TO LOAD: 1) Open drive door.  
2) Insert MERLIN'S CASTLE diskette into the drive.  
3) Keep pushing until you hear a click.  
4) Close drive door.  
5) Turn on computer.
