MURDER AT THE MANOR

by Gemtime

Hardware required: Sinclair ZX Spectrum 48K

Instructions

The squire has been murdered by a thief he disturbed. The murderer then makes good his escape, scattering the pieces of a notebook in which was written the combination of the Squires Safe.

Next day, the murderer fits back into his usual life style, confident he will never be detected. But unknowingly a vital clue remains in the safe, if only it can be opened

You are called in to investigate, and realise that you must open the safe. There are five clues to the combination - you must discover all of them.

Controls

Type in commands when prompted by the computer - eg:

"pick up knife"

"light the butler with the match"

The only restriction is the 31 character - long line.
