* = Special Loading Instructions

The RAINBOW Simulations Tape is a collection of Simulations published in "The RAINBOW Book of Simulations." The tape must be used with the book, which contains the documentation necessary to use the programs.

Special Note: To exit from the RAINBOW SIMULATIONS TAPE MENU, press the (up arrow) key. You may have to press it several times until the screen clears. The MENU program has a section in machine language that may otherwise interfere with other programs you run later.
