SwordThrust™: Fantasy Role-Playing as It Should Be.

You are a member of the adventurer's elite, the Guild of Free Rogues. You explore the endless universe of Diurla . . . the domain of monsters and magic. So draw your sword, and follow us into SwordThrust, the fantasy role-playing system by Donald Brown and CE Software.

A Continuing Adventure

Unlike other fantasy games, the realm of SwordThrust doesn't vanish at the end of one session. SwordThrust is a continuing adventure in which you actually become a person in a world filled with excitement and danger. You travel beyond a single game, on a journey of conquest that continues until you finally meet your match.

Begin with the Master Diskette

SwordThrust I is the Master Diskette, where all journeys in the SwordThrust system begin. Characters are created and stored on the Master Diskette, and begin their adventures in the Main Hall, where you arm and provision your character. You then travel to an adventure diskette, in search of gold, magical weapons, danger and glory. If you survive, you return to the Main Hall with your newly-acquired wealth and experience, ready to face another adventure.

A Fantasy Role-Playing System

SwordThrust is a collection of related adventures. You can enjoy the unlimited challenges of one adventure, or roam through them all. Since new SwordThrust adventures are always being

created, the life of your character can be endless! Up to 15 characters can be kept alive and active on the Master Diskette at one time. You can even swap characters disk-to-disk with other SwordThrust players.

SwordThrust is available from your Apple® computer dealer. All SwordThrust adventures require a 48k Apple® II with Applesoft in ROM, one disk drive and DOS 3.3. You must have a SwordThrust Master Diskette to play any other SwordThrust adventures.
