

TOWER of LIGHT

THE TOWER OF LIGHT

This is a fantasy role playing adventure which allows up to four characters or players to play at one time. The play starts in a land devoured by evil. Your tasks, to seek the Tower of Light, the last hope, and crown a new King of the Land.

HISTORY

During the many battles between good and evil, a particularly evil character left the ranks of the evil and appointed himself a new title, the Dark Lord. With this and many followers, he invaded a green and peaceful land, and turned it into a dark hell hole. After the wars ended, and good was once again triumphant, it came to the attention of the High Council, that there was a land which still played host to an evil force. The elders decided that it would be easier to send in a small company, up to a maximum of four. Their task, to find the tower of light, somewhere in the east, and crown a new king.
