## THE VORTEX FACTOR

### OVERVIEW

A high res text and graphics adventure game for the Dragon 32/64 and Tandy Colour 32K.

The Vortex Factor! What is it? What secrets does it hold? The seeker of treasures through time and space must find out! From the coliseum of ancient Rome to the futuristic world of tomorrow ...

### LOADING PROCEDURE

Follow the instructions on the cassette tape

### PLAYING THE GAME

The computer is your guide and will interpret all of your two word commands which should be entered as a verb plus a noun.

Examples

To pick up a box you might try **GET BOX.**

To learn more about the box try **EXAMINE BOX.**

To unlock a door try **UNLOCK DOOR.**

To move north try **GO NORTH.**

The program has a sizeable vocabulary of verbs and nouns so you can be creative in your choice of instructions. If one phrase doesn't work, try another approach. To speed play the program also understands a number of command abbreviations

COMMAND	ABBREVIATION
GO NORTH	N
GO SOUTH	S
GO EAST	E
GO WEST	W
GO UP	U
GO DOWN	D
GET	G
PUT	P
TAKE INVENTORY	I
LOOK	L

In addition there are commands to pick up and drop several objects simultaneously. The **GET ALL** will pick up all objects in your current location (provided you can carry them all) and the **PUT ALL** command will do the reverse. Some items or objects will not be displayed on the screen so be sure to check the text description at each location for a listing of everything visible. It is a good idea to examine each object for clues and valuable information.

### SAVING AND LOADING GAME PROGRESS

If your search for the solution to this puzzle takes longer than planned you may use the **SAVE** game command to save your current progress.

Use the **LOAD** game command at a later time to resume play.

The **SCORE** command provides you with the number of moves used during play. The score load and save commands do not count as moves.

The best advice for adventure gaming is to be logical and try to think of all options. Maintaining a constant curiosity with a careful eye to detail will help you win the game in a minimum number of moves.

This adventure produced in the U.K. under licence from Mark Data Products U.S.A.
