Command & Conquer Music CD

Remember the music you listened to while you roared past GDI infantry in your Recon Bike? It's just as invigorating on your trip to the grocery store or work. It might even get you in the mood to ask for that big raise. It's the award-winning music from Command & Conquer. If you find yourself threatening your boss with a rocket launcher, you've listened to the CD too much.

Command & Conquer Red Alert Music CD

The music of Command & Conquer Red Alert is a big hit in the Soviet Union. They may be communists, but they know good music when they hear it. Of course, there are very few good Russian bands, so you can imagine how they react to these award-winning tracks.

Lands of Lore Guardians of Destiny Music CD

With the inspiring music of Lands of Lore Guardians of Destiny you can morph into a lizard and sneak into the movies, or transform into a beast and show those punks on the beach who's boss. This music is very enchanting, but alas, you are just human with no magical powers. At least you have a great CD.
