

Using the Expansion Set Construction Program

1. Insert the original WIZARD game disk into your disk drive.
2. Type LOAD"WIZ",8,1 and press <return>.
3. When the menu (Demo, Game, and Construction) is displayed, insert the WIZARD EXPANSION SET.
4. Choose "CONSTRUCTION".
5. For instructions on using the new expansion set, press F1. For WIZARD sprite and level information, press F3. For "Custom Code" information about writing your own WIZARD sub-programs, press F5. For a directory of the disk in your drive, press F7.

Playing the new WIZARD levels:

1. Insert the original WIZARD game disk into your disk drive.
2. Type LOAD"WIZ",8,1 and press <return>.
3. When the menu (Demo, Game, and Construction) is displayed, choose "PLAY THE GAME".
4. Before choosing the difficulty level of the game (Beginner, Intermediate, etc.), insert the WIZARD EXPANSION DISK.
5. Continue on as you would normally play.

NOTE: The majority of the levels sent in to the competition were either EXPERT or ADVANCED. Consequently, many of the BEGINNER and INTERMEDIATE levels may seem to be out of place!

Progressive Peripherals & Software would like to congratulate the following outstanding contributors:
