THE LEGEND OF THE CAVE

*Tis a legend told long ago
About dark caves far down below,
Where deep within a Wizard dwells,
Bespaking doom and casting spells.*

*If this Lair thou dost uncover,
Four pieces of lion thou must discover.*

*Only then may you escape
Past the lion that guards the gate.*

*So heed this warning and beware
Never venture into 'Wizard's Lair'.*

GAME PLAY

Trapped in an underground cavern, 'Pothole' Pete stumbles across the Wizard's Lair - a massive subterranean network of interconnecting caves, rooms and passages. His only chance of escape is to find the four pieces of the Golden Lion which are spread over several levels of the cave. There are many items and strange creatures to both help and hinder Pete in his quest to escape.
