Installation

1. Start Windows 95/98/NT/2000
2. Insert the "Gabriel Knight: Blood of the Sacred, Blood of the Damned" disk 1 into your CD-ROM drive. If you've disabled AutoPlay, click on the start button, select [Run].
3. Type "D:\SETUP" and press [ENTER].
(If your CD-ROM is not named "D:," substitute its letter instead.)

Running the Game

MAIN MENU

Intro -Click on this to watch the opening movie. Once the movie starts, you can exit it by pressing [ESC].

Play -Click on this to start a new game.

Restore -Clicking this takes you to the Restore game screen. To restore a game, find the game you would like to restore in the list, and click on it. Then click the "Restore" button in the top-right corner of the screen. To exit the Restore screen without restoring, click the exit button.

Quit -Click on this to quit the game.

Playing the Game

Timeblocks

The game is split into "timeblocks." There are required activities for each timeblock, and after completing all of these activities, you will progress to the next timeblock. These

required activities can be anything from talking to a character about a certain topic to picking up a certain object. For example, the first timeblock is Day 1, 10 AM to 12 PM. That means that as you are playing that timeblock, all activities will happen in the "game world" between 10 am and 12 pm. That does NOT mean that you only have 2 hours in your time to finish that timeblock. See the Strategy Section for suggestions on how to best explore a timeblock.

Camera Movement

Mouse

The easiest way to move the camera is with the mouse. To do this, click and hold the left mouse button and drag the mouse around. Moving the mouse to the left and right will turn the camera to the left and right. If you move the mouse forward and back, the camera will move forward or backward in the room. If you hold down the [SHIFT] key, and click-and-drag the mouse forward and back, you can tilt the camera towards the floor or ceiling. To level the camera again, hit the [SPACE BAR]. If you hold down both buttons (or the left button and the [CONTROL] key) and drag, you can move the camera vertically up and down, or "side-step" left and right.

Keyboard

To move the camera using the keyboard, you can use the arrow keys. Using the left and right arrow will turn the camera to the left and right. Using the up and down keys will move the camera forward and back in the room. If you hold down the [SHIFT] key and press the up or down

arrow, you can tilt the camera towards the ceiling or floor. To level the camera again, hit the [SPACE BAR]. If you hold down the [CONTROL] key and use the up and down arrows, you can move the camera higher or lower in the room. If you hold [CONTROL] and use the left and right arrow keys, you "sidestep" the camera to the left or right.

INSPECT camera

To get a quick close-up of an object, left click on it and choose the "inspect" verb, which looks like a magnifying glass and will always be on the far left-hand side of the verb chooser, or you can [CONTROL]-click to (toggle) inspect/uninspect. Once in a close-up you can move the camera around from that point, or Un-Inspect, by left-clicking on the same object and choosing the "Return from inspect" icon (a magnifying glass with an exit arrow on it). This will return the camera to its previous position. Remember, if you get yourself in an awkward angle, use the [SPACE BAR] to level the camera. The Inspect cameras are very useful for low end machines, because you can move a long distance quickly by inspecting something on the other side of the room.

Character Movement

To move Gabriel or Grace around, left click on the floor where you want them to walk.

Keyboard Shortcuts

"I" - Opens and closes the inventory screen.

"space" - Levels the camera at the default height

"escape" Skips current action. (If Gabriel or Grace is walking, it will skip to the end of their path. If it is in dialogue, it will skip to the end of the current topic. If you are in a movie, it will skip to the end of the movie.)

"control-q" - Quit the current game

"p" or the [PAUSE] key - Pause or resume the game (useful for snack breaks).

"F5" - Quick save

"F6" - Quick load

"F11" - Take screenshot

PHARAOH

The creators of Caesar III are now taking you further back in time to the land of Ancient Egypt. The land of the Pharaoh.

Pharaoh is a strategic city building game set in the beautiful and mysterious land of the Nile. As ruler it is the gamers task to grow the Egyptian villages into thriving metropolises and see the economy and inhabitants come to life. Interact with your citizens, observe their culture and habits, raise their hopes or raise their homes. Manage your

city poorly and watch it burn, be pillaged or collapse in economic ruling. Manage it well and ultimately the grandest Egyptian monuments will be built in your honor.
