

# KING'S QUEST V

## 16-Color Version Installation Instructions

1. See pages 10 through 13 in your manual? Ok, now stop looking at them. They will only confuse you.
2. Look through the mountain of disks in your *King's Quest V* package. One set of disks is labelled "1.2M set." The other set of disks is labelled "720K set." (Note that there is one 5.25" disk in the 720K set and one 3.5" disk in the 1.2M set.) If you have a high-density 1.2M 5.25" drive in your computer, use the 1.2M set. If you do NOT have a high-density 1.2M 5.25" drive, use the 720K set. Decide which set you're going to use and put the other one aside, in a safe place, back in the box, or somewhere far away where it won't confuse you.  
  
If you only have low density 360K 5.25" drives, put ALL the disks away where they won't confuse you. You can't use any of the them. You'll need to call our Customer Service hotline at (209) 683-8989 and order *KING'S QUEST V* in the special low-density version directly from Sierra On-Line.
3. Okay, now you have either the 1.2M set or the 720K set in front of you. Make copies of these disks and put the originals away for safekeeping.

Now you must decide: do you want to play the game ENTIRELY from floppy disks, PARTIALLY from floppy disks and partially from a hard drive, or ENTIRELY from a hard drive? If you don't have a hard drive, the decision is easy, isn't it? If you don't have 9.2 meg of free space on your hard drive, or you're unwilling to devote that much space to *KING'S QUEST V*, you can use the partial hard drive install. That will install the STARTUP files on your hard disk, to the tune of about 1 Meg; the rest of the game will be played by switching floppies. If you have approximately 10 meg free (9.2 for the game files, plus room for saved games) on your hard drive, you'll want to install KQV entirely on the hard disk for maximum speed.

**If you want to play the game ENTIRELY from two floppy disks:** you must either have two 5.25" 1.2M drives, two 3.5" drives, or one of each.

**If you have two 1.2M drives:** Take the Startup disk from your 1.2M set (Disk 5 of 6). Place it in your A: drive and type A: and press [ENTER]. Type INSTALL and press [ENTER]. Answer the onscreen prompts with up and down [ARROW] keys.

**If you have two 3.5" drives:** Take the Startup disk from your 720K disk set (Disk 9 of 10). Place it in your A: drive and type A: and press [ENTER]. Type INSTALL and press [ENTER]. Answer the onscreen prompts with up and down [ARROW] keys. If you have one 1.2M drive and one 3.5" drive: Use the 1.2M set. Place the 3.5" DUAL DRIVE STARTUP disk (Disk 6 of 6) in your 3.5" drive and type A: and press [ENTER]. (If A: is not the name of your 3.5" drive, substitute the correct letter.) Type INSTALL and press [ENTER]. Answer the onscreen prompts with the up and down [ARROW] keys.

**If you want to play the game PARTIALLY from floppy disk and partially from hard disk:** take the disk labelled "Startup". In the 720K set, disk 9 of 10; in the 1.2M set, disk 5 of 6. (NOTE: Do NOT use the odd-sized diskette in the set, which is labelled "Dual Drive Startup.") Take the startup disk and insert it into the appropriate floppy drive. Type INSTALL and press [ENTER]. Answer the onscreen questions using the up and down [ARROW] keys. You will be asked if you wish to install the game on your hard disk. Enter the letter designation of your hard disk (usually C) and follow

the prompts. Choose the **SMALL INSTALL** to place only the startup files on your hard drive.

**If you want to play the game ENTIRELY from hard disk:** take the disk labelled "Startup". In the 720K set, disk 9 of 10; in the 1.2M set, disk 5 of 6. (NOTE: Do NOT use the odd-sized diskette in the set, which is labelled "Dual Drive Startup.") Take the startup disk and insert it into the appropriate floppy drive. Type **INSTALL** and press [ENTER]. Answer the onscreen questions using the up and down [ARROW] keys. You will be asked if you wish to install the game on your hard disk. Enter the letter designation of your hard disk (usually C) and follow the prompts. Choose the **REGULAR INSTALL** to place the entire game on your hard drive.

## 16-color Loading Instructions

### **If you're playing ENTIRELY from floppies:**

**If you have two 1.2M drives:** Place the **STARTUP** Disk from the 1.2M set (Disk 5 of 6) in one drive, and Disk 1 in the other. Type the letter of the drive containing the **STARTUP** Disk followed by a colon and then press [ENTER]. (For example, if the **STARTUP** disk is in drive A:, type **A:** and press [ENTER].) Type **kq5** and press [ENTER]. You will be prompted to insert disks as the game requires; remember to use **ONLY** the disks from the 1.2M set!

**If you have two 3.5" drives:** Place the **STARTUP** Disk from the 3.5" set (Disk 9 of 10) in one drive, and Disk 1 in the other. Type the letter of the drive containing the **STARTUP** Disk followed by a colon and then press [ENTER]. (For example, if the **STARTUP** disk is in drive A:, type **A:** and press [ENTER].) Type **kq5** and press [ENTER]. You will be prompted to insert disks as the game requires; remember to use **ONLY** the disks from the 3.5" set! If you have one 1.2M drive and one 3.5" drive: Place the **DUAL DRIVE STARTUP** Disk from the 1.2M set (Disk 6 of 6) in the 3.5" drive, and Disk 1 in the 1.2M drive. Type the letter of the drive containing the **DUAL DRIVE STARTUP** Disk followed by a colon and then press [ENTER]. (For example, if the **DUAL DRIVE STARTUP** disk is in drive B:, type **B:** and press [ENTER].) Type **kq5** and press [ENTER]. You will be prompted to insert disks as the game requires; remember to use **ONLY** the disks from the 1.2M set!

### **If you're playing PARTIALLY from floppy disk and partially from hard disk:**

Type **kq5** at the root directory of your hard disk and press [ENTER]. The game will prompt you to insert floppy disks as needed. Remember, use **ONLY** the disks from the set you installed (either the 720K set or the 1.2M set). You cannot mix disks from the sets.

### **If you're playing ENTIRELY from hard disk:**

Type **kq5** at the root directory of your hard disk and press [ENTER].

## **Congratulations!**

You've now solved the first puzzle in *KING'S QUEST V*! But if you're still stuck, or haven't successfully installed the game, call our Customer Service Hotline at (209) 683-8989.
