

## THE LANGUAGES SCREEN

The **Information Bar** tells which section of the program you're in, and which options you've selected.

The **Data Entry** area contains menus that you'll use to set up translations.

The **Help Line** shows you which function keys are active.

**To stop using Languages of the World** press the F10 key, then press Y.

## THE SEARCH OPTIONS MENU

**Look up Dictionary** gives you a complete dictionary translation.

**Display Translation** gives you a simple dictionary translation.

**Display Related Words** lets you search for synonyms.

## THE RANGE OF SEARCH MENU

**Headwords/Entry Phrases** searches for the first word of a dictionary entry.

**Sub-Headwords and Examples** searches for the subordinate part of a headword dictionary entry.

**Reverse** searches the dictionaries in reverse.

**Last Compound Element** searches for occurrences of the ending element of your search words.

**Main Words of Idioms** is used to look up idioms in the *NTC American Idioms Dictionary*.

## SHORT CUTS

**F1** toggles between a full dictionary definition, and a single-word translation.

**F5** and **F6** keys scroll the screen.

**F9** takes you back one step.

**F10** lets you re-enter a new word or phrase to search.
