

**T**his quality software product contains one or more hidden features . . . QUALITY MUSIC . . . ENTERTAINING SPEECH . . . DYNAMIC SOUNDS!

To discover these exciting new dimensions, you need a **Mockingboard**. We highly recommend this Apple® accessory and will utilize it in our software wherever appropriate. It adds life to your silent Apple.

MOCKINGBOARD is an amazing peripheral device which produces ear-opening sound effects, music and speech from your Apple. This new dimension of sound has been added to the many educational, game and music programs which support MOCKINGBOARD. The thorough documentation will teach you the fundamental theories of sound and speech and through MOCKINGBOARD, you can enhance your own software with sound, speech and music.

**Call to hear Mockingboard perform.**

If you would like to hear MOCKINGBOARD perform before you order, call (401) 941-1130 anytime. Or for a live demonstration, visit any of the over 1000 fine dealers who carry MOCKINGBOARD.
