

The Special Effects Department

Each brand of computer has its own unique features. Your IBM PC (or 100% compatible) is no exception. The IBM PC version of Wizardry has been specially programmed to take advantage of some of these features.

Ostentatious Displays

Wizardry runs only on PC's with a Color Graphics Adapter (CGA). There are three different types of display monitor that Wizardry has been designed to use; RGB Color, Composite Color (Television) and Black&White. Wizardry understands the differences between these devices, and has special graphics for each. Unfortunately, Wizardry has no way of knowing which device you're using unless you tell it.

- Wizardry assumes you are using an RGB monitor unless you tell it otherwise.
- Holding down the **CTRL** key while the game is booting will tell Wizardry you are using a Composite monitor or Television set.
- Holding down the **ALT** key while the game is booting will tell Wizardry you are using a Black&White monitor.
- At any time, you can press the **F1** or **F2** to shift the display left or right in small increments.

Pauses for Thought

Occasionally the program pauses to allow you to read messages. Although this delay is adjustable (by pressing **T** when in the Maze), experienced players will often want no time delay at all. Pressing **ALT** when the program is pausing will end the pause immediately. If you get tired of pressing **ALT**, you can press **SCROLL-LOCK** to switch all the pauses off and on. These features are especially handy during long combats.

Sounding Off

There are times (2 A.M. in particular) when you need to play in silence. Pressing **CAPS-LOCK** will switch the sound on and off.

The Red Light Disk-trict

Many PC's demand a delay of a second or more when a disk drive is turned on, to allow it to speed up. By keeping the disk drive motor turning for a few seconds after each disk access, Wizardry can often avoid this delay. Feel free to type in commands while the disk drive light is on. Wizardry will accept, store and execute them as fast as it can.

DISCLAIMER

Neither SIR-TECH SOFTWARE, INC., the author(s), distributor(s) or seller(s) of this product shall have any liability or responsibility to the purchaser or any other person or entity with respect to any liability, loss or damage caused or alleged to be caused directly or indirectly by this product, including but not limited to any interruption of service, loss of business and anticipatory profits or consequential damages resulting from the use or operation of this product. This product will be exchanged if defective in manufacture, labeling or packaging, but except for such replacement the sale or subsequent use of this program material is without warranty or liability.

NOTE: This product is copyrighted and all rights are reserved. The distribution and sale of this product are intended for the personal use of the original purchaser only, and for use only on the computer system(s) specified herein. Renting this product, or duplicating and selling or renting or otherwise distributing this product, in any form, is hereby expressly prohibited.

Disk Warranty

If your disk should become unreadable within 90 days of purchase, return it with proof of purchase to SIR-TECH SOFTWARE, INC., for a free replacement. After 90 days enclose \$7.50 to cover costs of media restoration or replacement and shipping charges. Before returning your disk, please determine:

- (1) If your disk drive is out of alignment and speed or;
- (2) If your computer has a bad RAM.

Test the disk on another computer. If the program works, you have a problem with your hardware. If the program doesn't operate, send the disk back to us. The original disk must be returned to us for replacement.

SIR-TECH SERVICES

Hotline Support System -- Available 7 days a week

If you have a problem with any *Wizardry* scenario that you can't solve, we encourage you to call us. We've got someone waiting to help you.

Phone (315) 393-6633

Monday - Friday -- 4:00 - 8:00 p.m. Eastern time

Weekends & U.S. Holidays -- 12:00 - 6:00 p.m. Eastern time

We repair and mail back corrected disks within 24 hours of receiving them. Very few firms claim this service. SIR-TECH claims it . . . and we do it.
