

Treasure Island - Part 1 - Objects - how to find - how to use.

PENNY - In the Longboat in which blind Pew arrives. Once the pirates are in the inn searching for the map, you have sufficient time to go to the cove and get the coin from the longboat. SEARCH BOAT. Now go back to your hiding place until Mr. Dance and his men drive off the pirates.

BOOK - Found after Pew's body removed by Mr. Dances' men. Give it to the Captain.

KEY - Around Billy Bones neck. Examine the bed - examine the body - then undo buttons or open shirt. The key unlocks the chest which is in the cupboard.

BAG OF COINS - Given to you when you arrive in Bristol. Go to the Spyglass Inn and give the bag to Long John Silver. You will not be admitted into the inn unless you are wearing the eye patch.

SCROLL - See bag of coins. Go aboard the Hispaniola and give the Scroll to Captain Smollett.

ROPE - In the store room aboard ship. See davit.

PIRATE GUARDING STORES - Give him the tankard of rum.

TANKARD - In the galley. You can't get it whilst Long John is around. Tell him a fib, tell him to report to the captain.

BARREL - By the main mast aboard the Hispaniola. You must enter the barrel in the final week of the journey. You cannot enter it until all the apples have been eaten. Once you hear men talking - LISTEN and you will hear the plot to steal the map. Once the plotters have gone go to the Captain and TELL CAPTAIN ABOUT MUTINY. This ends part one and you are told to save your position for entering part 2.

CHEESE - In the larder - you cannot leave the galley with it as Long John will reappear and take it from you. You can only enter the larder when Silver is not in the galley. You need some cheese in part 2 but more of that later.

MAP - In the oilskin packet - give map to either the Doctor or the Squire and follow instructions.

BLACK SPOT - In Billy Bonds clenched fingers. Open fingers or unclench them.

When accosted by muggers in Bristol just SHOW SPOT.

DAVIT - at stern end of ship. FEED THE ROPE then RELEASE LEVER. This is most important because this is how you get back on aboard the ship again in part 2.

Treasure Island. Objects & their uses in part 2.

CORACLE - Found in tent down from large bird after you have given Ben Gunn some cheese. Use the coracle to board the Hispaniola after the mutiny has started. LAUNCH CORACLE then PADDLE (Must have a paddle). When you come up against the anchor rope CUT ROPE (must carry knife) to set the ship free. Keep paddling until the stern of the ship is towards you and you can see the hanging davit rope. At this point JUMP.

MOTH - this is needed to eliminate the large bird sitting on the White Rock. Up large tree, examine branch to find a caterpillar. Pick a few leaves and put both caterpillar and leaves in your pocket. The caterpillar will eventually change into a moth. Just RELEASE MOTH at the White Rock.

BERRIES - on the twisted bough west of the Stockade. Drop the berries where the goats congregate but make sure that you have the small pail with you. When a goat appears just MILK GOAT. You now have a pail filled with milk.

PICKAXE - found in the deep excavation. Use it along with the shovel to repair the north wall of the Stockade.

SPADE - found in deep excavation - see pickaxe. Dig several times in deep excavation to find a doubloon and a bar of gold. Drop them in the treasure cave for extra points. Also in cemetery to unearth the knife.

AXE - in deep excavation. CHOP TREES at location of Pine Trees east of Stockade. You must first SHARPEN AXE on the White Rock.

UNSQUARED TRUNKS - see axe. Needed to repair wall of Stockade. See pickaxe and Spade.

PAIL - Search the treasure in the cave.

CHEESE - GIVE CHEESE TO BEN in order to find out where the coracle is. With a pail of milk and spoon - STIR MILK or CHURN MILK or MAKE CHEESE - the milk turns into curds and finally cheese.

PISTOL - In swamp like area frequented by wildfowl west of North Inlet. When you disturb some birds you also hear men fighting. HIDE until all is quiet. SEARCH PIRATE to find the pistol. Once you are back on board the ship Israel Hands will help you beach it at the North Inlet but he will kill you as you lay on the deck unless you carry the pistol and KILL ISRAEL or FIRE PISTOL.

WOODEN SPOON - SEARCH STOCKADE - needed when you make the cheese.

CAVE - TELL BEN ABOUT SILVER or MUTINY - he will then tell you how to find the cave. TELL DOCTOR ABOUT CAVE after you have found it - he will then give you a paddle. TELL DOCTOR ABOUT SHIP after killing Israel Hands and this will bring the adventure to an end.

Note:- If you visit the Anchorage after the mutiny has started the two pirates guarding the longboat will kill you.

You also get killed if you attempt to repair the stockade wall after the mutiny has started.

Israel Hands will kill you if you attempt to leave the steering wheel. The mutiny starts a few moves after you have given Ben Gunn the cheese.
